

8MM LIFEBUOY LINE IN PLASTIC CONTAINER

ITEM NO: 330168

The MOB Rescue Line Container provides a simple and reliable solution for man overboard rescue operations. Equipped with 30 meters of floating rescue rope, it is designed for rapid deployment and long term outdoor use in demanding marine environments. Designed for use with standard 30" lifebuoys, the MOB Rescue Line Container provides a reliable and readily accessible rescue line for man overboard emergencies.

- 8 mm floating synthetic rope, suitable for marine rescue applications
- UV- and saltwater-resistant container for prolonged outdoor installation
- Quick-access design for man-overboard response
- Compatible with SOLAS-approved lifebuoy stations
- Low-maintenance, corrosion-resistant construction
- Rope length 30 meters suitable for standard MOB rescue range
