CPRD FAST RESCUE CRAFT KITS

The Crewsaver PRD Fast Rescue Craft is a SOLAS approved Man over Board (MOB) retrieval device. We have designed it ergonomically to assist in the retrieval of conscious and unconscious casualties from the water. Retrieval can be made horizontally without risking further injury to the casualty, or to the rescuer.

The device is available in two sizes as a complete kit and is supplied in a robust and highly visible case that is suitable for stowing in the craft. It comes complete with hypalon patch fixing kits to attach it to either side of the craft.

Constructed from high density plastic rungs and steel rods, it is fitted with Marine Grade 316 stainless steel snap hooks. We have added lifting strops and heaving lines to aid a swift and practical retrieval.

There is a three year servicing requirement for each Crewsaver PRD which is readily available through the Crewsaver International network.

- Available in two sizes as a complete kit: 3 x 14 or 4 x 15
- Supplied in a robust, high-visibility valise
- Compact enough to be stowed in the craft
- Comes complete with "Hypalon" patch fixing kits to enable attachment to the inflatable tube on the craft
