

# PILOT LADDER MAGNET SET

## Product Description

The Pilot Magnet Ladder Locker is a simple solution designed to enhance safety measures for staff and harbor pilots. This system offers safely removable anchor points for securing pilot ladders to the ship's side, ensuring a secure and stable environment. Magnets are supplied with DNV Certificate.

### Key Features:

- 1. Enhanced Safety:** The Pilot Magnet Ladder Locker is specifically engineered to create a safer working environment for staff and harbor pilots. It eliminates the risk of ladder slippage or instability, minimizing the potential for accidents or injuries.
- 2. Removable Anchor Points:** The ladder locker utilizes powerful magnets to provide easily removable anchor points. This feature enables quick and effortless installation and removal of ladders, allowing for efficient operations and increased productivity.

“

Carry box contains  
2 Magnets  
2 Release straps  
1 Pilot Boarding Poster  
1 DNV Certificate  
35,5x25,5x28cm  
Weight 12kg

”

**3. Lightweight Design:** Our ladder locker is constructed using lightweight materials, ensuring ease of handling and maneuverability. This feature simplifies the process of attaching and detaching ladders, reducing physical strain on users.

**4. Exceptional Strength:** Despite its lightweight design, the Pilot Magnet Ladder Locker boasts remarkable strength. With lift and pull ratings exceeding 500 KG, it provides a robust and reliable solution for securing ladders firmly in place.
