Housing : Anodized Aluminium

Mecanism : Aluminium Pulley

Weight (without rope) : 1.8 Kg

Karabiner : Dim. > 134 * 75 mm Opening : 20 mm

Descend speed: 1m / second

Benefit

The next generation rescue solution.

Miller Safescape ELITE complies with the new EN 341/2008 standard.

Thanks to its durable high-quality anodized aluminium housing, our units remains in optimum condition of use, even in the toughest environments.

8000m descent for 100kg, maximum descent height of 500m, use in emergency by 2 people weighing up to 250kg.

Recertification by factory or Miller Service Point is required only after seven years, thanks to its robust and highly resistant components.

Available in several lengths (see references below) and also a range of accessories for rescuing.
