OUR OBJECTIVE
EFFICIENT

SUPPLY CHAIN

Portable Fire Extinguishers with ECO Friendly Foam (PFAS FREE)

PFAS are known as "forever chemicals" because once released into the environment, they never break down. PFAS also build up in our bodies, where they can stay for decades. PFAS chemicals are associated with cancer, reproductive and developmental harms, and harm to the immune system.

Bans are planned or imposed around the world; the US has already decided impose ban from 2024

Why wait! Improve enviromental impact and change to a safe foam.

The environmental advantage to our Foam is non-hazardous, biodegradable substance formulated using raw materials specially selected for their fire performance and their environmental profile. All raw materials are registered in European REACH-database. The product is totally free from fluorinated surfactants and polymers and other organ halogens, and therefore it does not contain any PFOS or PFOA.

FIRE EXTINGUISHER 6Lt ECO FOAM

Fire Extinguisher 6 Liter.

Filled with environmentally friendly Foam. Metallic bracket included

Extinguishing Agent BSX233 1,5%

FIRE EXTINGUISHER 9LT ECO FOAM

Fire Extinguisher 9 Liter.

Filled with environmentally friendly Foam. Metallic bracket included

Extinguishing Agent BSX233 1,5%
