RS450FF Type A Fire Fighting Locker

Typical use:

This locker is used to store fire fighting equipment (damage control) in Military vessels and has the NATO part number NSN 2090-99-258-4405.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The roller shutter door enables access in confined spaces. The AS shutters used have proved to be extremely durable over a very long period of time.

The cabinet can be customised with shelves and brackets.

Standard specification:

Dimensions: Height x width x depth:

2000 x 1090 x 450 mm (78.7 x 42.9 x 17.7")

Aperture: 1530H x 902W mm (60.2 x 35.5")

Internal depth: 396 mm (15.6")

Weight : 35Kg (77Lb)

Material specification:

Colour: Red RAL3000

Material: Lloyds approved composites with UV stabilised gelcoat

Class 1 fire retardant composites
