FIRE, RESCUE & LIFE SAVING

Safety at sea is non-negotiable. When an emergency arises, the quality and reliability of your Fire, Rescue & Life Saving Equipment can mean the difference between a controlled situation and a crisis. At MariTeam, we understand the unique challenges of maritime safety, and for over 70 years, we have been a trusted partner for shipowners, operators, and maritime professionals worldwide.

A Heritage of Trust and Excellence

Since our founding in 1952, MariTeam has remained an independent and dedicated supplier to the maritime industry. Our commitment has never wavered: we provide high-quality products, expert guidance, and exceptional service to ensure that vessels are equipped with the best life-saving solutions available. We take pride in

our ability to adapt to an evolving industry while staying true to the values that have made us a trusted name for decades.

Global Reach, Immediate Availability

The maritime industry moves fast, and downtime is costly. We understand the importance of availability and swift delivery, which is why we stock an extensive range of certified fire, rescue, and life-saving equipment at our warehouses—ready to be dispatched at a moment's notice. Our global logistics network allows us to ship directly to ports and distribution hubs worldwide, ensuring that your equipment arrives on time, every time.

Trusted Partnerships, Certified Quality

Safety regulations in the maritime industry are stringent, and compliance is essential. That's why we work with industry-leading ma-

G EQUIPMENT

Manufacturers who meet the latest IMO, SOLAS, and other international standards. Our partners share our dedication to safety, reliability, and innovation—ensuring that every piece of equipment we supply has been tested and approved for use in the world's most demanding environments.

Expert Guidance for Complex Requirements

Selecting the right fire, rescue, and life-saving equipment is not a one-size-fits-all process. Different vessel types, operational conditions, and regulatory frameworks require tailored solutions. At MariTeam, we provide expert consultation to help you choose the best equipment for your specific needs. Whether you need fire suppression systems, personal survival gear, evacuation solutions, or emergency response equipment, we help you navigate the options to ensure full compliance and optimal safety.

Additionally, many vessels operate under multiple regulations and standards, making equipment compatibility a challenge. Our team is experienced in custom-built fittings and modifications, ensuring that your ship is fully equipped to meet all necessary requirements without compromise.

A Commitment to Safety That Never Ends

At MariTeam, our role doesn't end when the equipment is delivered. We are here for the long haul, supporting you with expert knowledge, ongoing availability, and a commitment to keeping your operations safe. When you choose MariTeam, you're not just purchasing equipment—you're investing in a partnership built on trust, experience, and a shared dedication to safety at sea.

*Stay safe. Stay prepared.
Trust MariTeam*

Part Number: 4004902-330-CREW (HI-VIZ YELLOW)

LIFE JACKETS

SWIFT **WATER RESCUE****Part Number:** 8673

The Swift Water Rescue Jacket is a top of the range multi-purpose rescue and emergency response 80N buoyancy aid. The jacket features pockets and attachment points so you can easily store and access your tools and equipment, so you always have the gear at hand for the job you need to do.

REGATTA **WORKVEST****Part Number:** 4104911-339

Workvest are designed and manufactured at the request of the Norwegian Petroleum Directorate (NPD); basis NS 9360. vests are used for work in exposed situations; deck, offshore installations and maintenance. The used outer fabric was tested in accordance to EN ISO 15025:2000, Procedure A, limited flame spread

MARISAFE
275 ISO 12402**Part Number:** 320201

Stylized horseshoe design with offset shoulder straps to alleviate weight and pressure stress on neck and shoulders. 275 Newton single chamber inflatable life jacket. Ideal for general use with foul weather clothing and heavy equipment.

MARISAFE
275 SOLAS**Part Number:** 320200

Double chamber inflatable 275N life jacket / The double chamber gives the security that if one chamber is damaged or fails, the other chamber is sufficient to support the wearer in the water on its own / Zip fastening cover / Harness and crutch strap / Marine grade whistle / SOLAS retroreflective tape / Automatic water-activated SOLAS light.:

SEACREWSADER
2010**Part Number:** 1143-AUTO

The Seacrewsader 2010 275N Twin Chamber is designed to meet the SOLAS 2010 regulations according to MSC 81(70) as amended by MSC 200(80) and MSC 207(81). Fall arrest and deck harness options

SEACREWSADER
290N 3D WIPE CLEAN**Part Number:** 1146-WCAUTO AUTOMATIC WITH HOOD, 1146-WCAUTOH AUTOMATIC, HARNESS WITH HOOD

Crewsaver's wipe clean lifejackets are a suitable choice for those seeking a durable, easy to clean option for industrial use. Designed for extreme working environments and appropriate for abandonment purposes.

CREWFIT **275N XD****Part Number:**

SEACREWSADER **290N 3D FIRE RETARDANT****Part Number:**

1146-FRAUTO AUTOMATIC
WITH HOOD, 1146-FRAUTOH
AUTOMATIC, HARNESS
WITH HOOD

LIFE JACKETS

CREWFIT 275N XD FIRE RETARDANT

The Crewfit 275N XD offers the ultimate in advanced comfort and performance technologies to date. Constructed using a heavy duty 500D cover to maintain longevity of the life-jacket. External indicator window.

Part Number: 9251FRA AUTOMATIC, 9251FRM MANUAL, 9251FRH HAMMAR

CREWFIT 150N XD WIPE CLEAN

The Crewfit 150N XD delivers advanced comfort and performance with a modular design offering customizable covers, inflation, and harness options. Its wipe-clean cover ensures durability in tough environments, while 500D fabric shoulder panels provide a comfortable fit. Ideal for continuous use in demanding conditions.

Part Number: 9251WOM MANUAL + ORANGE, 9251WYM MANUAL + YELLOW, 9251WOA AUTOMATIC + ORANGE, 9251WYA AUTOMATIC + YELLOW, 9251WOH HAMMAR + ORANGE, 9251WYH HAMMAR + YELLOW

COMPACT 150 REGULAR

The Compact 150 Mark II is ideal for general heavy use professional and commercial applications due to its high abrasion resistance outer cover.

Part Number: 320202

COMPACT 150 SUPREME

The Compact Supreme 150 Heavy Duty Wipe clean lifejacket is ideal for heavy commercial fishing applications and also suitable for construction workers. High abrasion resistance fabric reinforced with additional high abrasion resistance 'Tektor' fabric around the sides and lower edges of the cover to prevent damage.

Part Number: 320203

COMPACT 275 SUPREME SOLAS - ULTRAFIT

The Compact Supreme 275 SOLAS Heavy Duty Wipe Clean lifejacket is ideal for offshore extreme use with foul weather clothing and heavy equipment. The Wipe Clean PVC reinforcement cover is ideal for heavy duty industrial use and for heavy commercial fishing applications.

Part Number: 3MYIE6N18

HI-RISE 150 SOLAS REGULAR

The Hi-Rise 150 is a stylized horseshoe design with a zip closure cover and a double back strap for general offshore use. This lifejacket is dual approved to latest SOLAS 2010 regulations and EN ISO 12402.

Part Number: 2MSFA4NM1 BLUE/BLACK, 2MSFA4NM1 RED/BLACK

HI-RISE 150 SOLAS WIPE CLEAN SOLAS/MED

Same as Hi-Rise 150 but with Wipe clean PVC reinforced version is ideal for heavy duty industrial use.

Part Number: 2MSG44NM1

HI-RISE 275 SOLAS WIPE CLEAN - ULTRAFIT

Hi-Rise 275 Ultrafit is a SOLAS-approved, double-chamber lifejacket with 320N buoyancy. Designed for heavy-duty offshore use, it features a wipe-clean cover, integrated safety harness, and superior comfort with unique bladder shape and dual shoulder straps.

Part Number: 2MTTA4NM1 HALKEY ROBERTS, 2MTTE2NM1 HAMMAR

LIFE JACKETS

HI-RISE 275 SOLAS

REGULAR - ULTRAFIT

Ultrafit horseshoe design 275 Newton double chamber inflatable life jacket. Ideal for heavy duty offshore use with foul weather clothing and heavy equipment.

Part Number: 2MTSA4NM1 HALKEY ROBERTS, 2MTSE2NM1 HAMMAR

HI-RISE 275 SOLAS - ULTRAFIT

+ FALL ARREST HARNESS

Ultrafit horseshoe design 275 Newton double chamber inflatable life jacket. Ideal for offshore use with foul weather clothing and heavy equipment

Part Number: 2MU6F0NM1

MOB1 HI-RISE 275 SOLAS

WIPE CLEAN-ULTRAFIT

The MOB1 Hi-Rise 275 SOLAS Wipe Clean is integrated with the Ocean Signal personal locating AIS Man Overboard device RescueMe MOB1. The Wipe Clean PVC reinforced version is ideal for heavy duty industrial use.

Part Number: 2MTTF5NM1 SPRAYHOOD, 2MTTF2NM1 MOB1, 2MTTF3NM1 M100

HI-TIDE 275 HEAVY DUTY

- ULTRAFIT

The Hi-Rise 275 SOLAS lifejacket is also available with the addition of a fall arrest harness. The lifejacket has an attachment system, which can easily be fitted to most fall arrest harnesses. Standard fall arrest harness options available. Other models of fall arrest harness can be considered on request.

Part Number: 3MXUA4NM1

REGATTA

AQUASAFE

Regatta AquaSafe Elite is a premium, lightweight inflatable life jacket designed for ultimate comfort and safety. Crafted from durable nylon with a breathable mesh back, it features a 200 cm adjustable belt with a sturdy plastic buckle and SS440 buckle. Equipped with a D-ring for kill-switch, whistle, and belt-keeper to prevent entanglement.

Part Number: 4154808 900 40+ KG BLACK, 4154808 800 40+ KG RED, 4154808 100 40+ KG NAVY

REGATTA

PROSAFE

Developed in cooperation with users in the aquaculture industry. Lightweight and comfortable. Equipped with neoprene collar, extra long belt and space for logo. Inspection window for increased safety. Crotch strap. With light.

Part Number: 4154903

REGATTA SEARESCUE

- HYBRID 225N

Developed in cooperation with users in the aquaculture industry. Neoprene collar and back panel in venting mesh provide increased comfort. Inspection window for increased safety. The vest also has a strap, extra long belt and space for logo. With light.

Part Number: 4224909

REGATTE HYBRID

LIFEJACKETS

Combines fixed buoyancy elements (55N) with an inflatable bladder (170N), and therefore provides "double protection". The Hybrid 225N is designed for work situations that require good mobility. It has a zipper in the front, a belt around the waist and a welded reflector.

Part Number: 4224908

Short loop tab

Part Number: IA-0410

Part Number: IA-0401

REARMING KIT, Manual/Automatic Cap A1

The A1 Hammar Inflator activates automatically when submerged and a pressure difference of about 10 cm is reached. The lifejacket will reach full buoyancy within seconds and it is designed to ensure fast and reliable activation even in the most extreme weather conditions. It is important that you don the lifejacket according to the manufacturer's instructions in order to secure the function of the lifejacket and for automatic inflation. **SERVICE / MAINTENANCE** The Hammar Inflator needs no service or maintenance. Just ensure that the inflator is replaced after the five years expiry date or when the single point indicator is red.

SMRT ALERT

Part Number: 320218

SMRT ALERT is a Class M AIS DSC Man Overboard (MOB) beacon, combining AIS and VHF DSC for superior marine safety. It features automatic water activation, audible and visual alerts, easy life-jacket integration, multiple mounting options, and app compatibility.

RESCUEME MOB2

RescueME MOB2 by Ocean Signal is a compact AIS Class M MOB beacon, combining AIS and VHF DSC for fast, reliable recovery. It features automatic lifejacket activation, GPS for precise tracking, dual IR/white strobes, and NFC app connectivity.

Part Number: 320219

OUR MAINTINANCE RECOMENDATION

Inspect your lifejacket regularly: Before each use, inspect your lifejacket for any signs of damage or wear, such as tears, holes, or broken zippers. Make sure all straps and buckles are in good condition and properly secured.

Follow the manufacturer's instructions: Always follow the manufacturer's instructions for the care and maintenance of your lifejacket. This may include specific instructions for cleaning, storing, and servicing your lifejacket.

Keep your lifejacket clean and dry: After each use, rinse your lifejacket with freshwater and hang it up to dry in a well-ventilated area. Avoid exposing your lifejacket to direct sunlight or heat sources that could cause it to deteriorate. Store your lifejacket properly: When not in use, store your lifejacket in a cool, dry place away from di-

rect sunlight and other heat sources. Make sure your lifejacket is stored in a way that allows it to retain its shape and structure.

Service your lifejacket regularly: According to SOLAS regulations, your lifejacket must be serviced at least once every two years by a certified service technician.

During this service, the technician will inspect and test all components of your lifejacket, including the inflation mechanism, CO2 cylinder, and oral inflation tube.

By following these guidelines, you can help ensure that your lifejacket is always in good working condition and ready to use in the event of an emergency. Remember, a well-maintained lifejacket can be the difference between life and death in a dangerous situation.

IMMERSION SUITS

MAS
III

A 5mm neoprene drysuit designed for thermal protection, providing at least 6 hours of defense against cold water shock and hypothermia. Features a waterproof zipper, hood with Velcro face seal, ankle straps, lifting strop, retro-reflective tape, and neoprene gloves. Available in sizes S–XL.

Part Number: 1MHZN2YX8 (S, M, L, XL)

CREW
ENDURANCE

A SOLAS MED-approved crew endurance suit designed for survival in cold water. Provides thermal protection, prevents significant body temperature loss, and aids in rescue. Features a fire-retardant neoprene construction, waterproof metal zipper, lifting strop with stainless steel D-ring, reflective tape, buddy line, whistle, and ankle adjusters.

Part Number: 8810-M, 8810-L, 8810-XL

CREW
ENDURANCE 140N

The Crew Endurance 140N Suit is a SOLAS MED-approved immersion suit designed to protect against cold water exposure. Features a hi-vis buoyancy pillow, fire-retardant neoprene construction, waterproof metal zipper, lifting strop with stainless steel D-ring, reflective tape, neoprene face flap, buddy line, whistle, and ankle adjuster.

Part Number: 8808-M, 8808-L, 8808-XL

CREW
ENDURANCE PLUS

A SOLAS MED-approved immersion suit designed for thermal protection and maritime safety. Features a 40mm nylon lifting strop with a stainless steel D-ring, fire-retardant neoprene construction, waterproof zip, reflective tape, integral latex gloves, and an additional over-glove for insulation. Can be unpacked and donned in under 2 minutes.

Part Number: 8800MK2-SHM MEDIUM, 8800MK2-SHU UNIVERSAL, 8800MK2-SHXL XTRA LARGE

CHILD
IMMERSION SUIT

SOLAS MED-approved Crewsaver immersion suit made from 5mm fire-retardant neoprene for superior insulation and durability. Waterproof with reinforced seams, taped critical areas, and a reinforced foot sole. Supplied in a carry bag with donning instructions. Must be used with an approved lifejacket.

Part Number: 8800-SC, 8800-SHC with Harness

IMPERIAL
IMMERSION SUIT

The Imperial Immersion Suit, in production since 1969, is a meticulously crafted and pressure-tested survival suit designed for maritime safety. Available in multiple sizes, each suit is supplied in a color-coded storage bag. Approved by USCG, TC, and SOLAS, with MED/SOLAS models available.

Part Number: 904002 ADULT (USCG, SOLAS & TC APPROVED), 904014 ADULT (USCG APPROVED)

REGATTA
ACTIVE 911

High-performance flotation suit with an excellent fit. Features detachable suspenders, adjustable belt, Cordura-reinforced seat and knees, neoprene cuffs, and taped seams. Windproof, water-repellent, with ventilation zippers, reflective tape, and fleece-lined pockets. Certified to ISO 12402-5/6 50N and tested to EN ISO 15027-3:2002 for thermal protection.

Part Number: 4504650 133 S, 4504650 133 M, 4504650 133 L, 4504650 133 XL, 4504650 133 XXL, 4504650 133 3XL

REGATTA
SPORTLINE 954

A super lightweight flotation suit designed for superior fit and comfort. Features reinforced knees, double-taped seams, and long leg zippers for easy wear. Durable and reliable for both professional and leisure use. Certified to ISO 12402-5/6 (flotation) and EN ISO 15027-3:2012 (thermal protection).

Part Number: 4504658 930 S, 4504658 930 M, 4504658 930 L, 4504658 930 XL, 4504658 930 XXL

MAS III

A 5mm neoprene drysuit designed for thermal protection, providing at least 6 hours of defense against cold water shock and hypothermia. Features a waterproof zipper, hood with Velcro face seal, ankle straps, lifting strop, retro-reflective tape, and neoprene gloves. Available in sizes S–XL.

Part Number:

1MHZN2YX8 (S, M, L, XL)

FLOATATION GARMENT

REGATTA COASTLINE
953 RED/NAVY

Innovative flotation suit weighing just 1.4kg, making it the lightest on the market. Features a seamless shoulder and chest pocket design to prevent water penetration, underarm ventilation, a durable front zipper, reinforced crotch seams, and slanted leg zippers with Velcro fasteners for easy wear and enhanced durability.

Part Number: 4504651 806 (S-XXXL), 4504651 806 M, 4504651 806 L, 4504651 806 XL, 4504651 806 XXL, 4504651 806 3XL

REGATTA COASTLINE
951 BLACK/ORANGE

A new flotation suit weighing just 1.4kg, making it the lightest on the market. Features a seamless shoulder and chest pocket design to prevent water penetration, underarm ventilation for breathability, a high-quality front zipper, reinforced crotch seams, and slanted leg zippers with Velcro fasteners for durability and ease of use.

Part Number: 4504652 902 S, 4504652 902 M, 4504652 902 L, 4504652 902 XL, 4504652 902 XXL, 4504652 902 3XL

REGATTA H
ARBOUR 106

A newly developed ISO-approved 50N flotation pant in water-repellent, and durable nylon. For fishermen, sailors, rib drivers or others who want the benefits of a flotation-suit, but want flexibility regarding clothing, and, temperature and weather conditions etc. For standalone usage or along, with a flotation-jacket or a simpler leisure/rain jacket.

Part Number: 4504657 900 S, 4504657 900 M, 4504657 900 L, 4504657 900 XL, 4504657 900 XXL, 4504657 900 3XL

REGATTA
HARBOUR 906

A high-visibility flotation jacket designed for occupational use, offering built-in buoyancy and protection against hypothermia. Features flame-resistant outer material, ID pocket, VHF fastening, reflective elements, D-ring, whistle, and crotch strap. Certified to EN ISO 20471:2013 (Class 2 for XS, Class 3 for S-3XL).

Part Number: 4504670 339 S, 4504670 339 M, 4504670 339 L, 4504670 339 XL, 4504670 339 XXL, 4504670 339 3XL

REGATTA
FISHERMAN SUIT

The Regatta Fisherman Suit 50N is a reliable and durable flotation suit, designed to provide safety and comfort during demanding tasks. Featuring robust fabric construction, it offers excellent freedom of movement and insulation. With a buoyancy of 50N, it's an essential companion for professional fishermen.

Part Number: 4504655 334 S, 4504655 334 M, 4504655 334 L, 4504655 334 XL, 4504655 334 XXL

REGATTA
FISHERMAN PANTS

Modern fisherman's pants with built-in buoyancy for added safety in demanding work environments. Made from windproof and waterproof PVC-coated polyester for durability and comfort. Designed with input from fishermen to ensure functionality and ease of movement.

Part Number: 4504656 334 S, 4504656 334 M, 4504656 334 L, 4504656 334 XL, 4504656 334 XXL

AQUAFLOAT
SUPERIOR SUIT

AquaFloat Suit is a constant-wear flotation suit, tested to ISO 15027: Class D for 2-hour thermal protection in cold water. Features reinforced knee and seat panels, a high collar with a protective chin strap, and a high-visibility yellow insulated peaked hood with built-in face protection, stowed in the collar. Includes an ID pocket on the chest.

Part Number: 1MHNA2N07 (S, M, L, XL, XXL)

AQUAFLOAT
SUPERIOR JACKET

AquaFloat Jacket meets the needs of demanding users, offering superior protection and comfort. Features a high collar with a protective chin strap, a high-visibility yellow insulated peaked hood with built-in face protection (stowed in the collar), and a chest ID pocket for convenience.

Part Number: 1MMVA2N07 (S, M, L, XL, XXL)

FLOATATION GARMENT

AQUAFLOAT HARNESS JACKET

AquaFloat Harness Jacket is a uni-color red jacket designed to accommodate an EN ISO 12401 deck safety harness through built-in chest apertures. Available with or without a pre-fitted harness, it includes lifejacket attachment loops on the front chest and back neck for secure integration.

Part Number: 1MMWA2N07 (S-XXXL), 1MMWF0N07 (S-XXXL)

SEAMASTER II

AquaFloat Seamaster II high-visibility yellow flotation jacket for day and night safety. Features a high collar with a chin strap, insulated peaked hood with face protection (stowed in collar), multiple pockets, and chest ID pocket. Certified to EN 20471.

Part Number: 1MMXA2N07 (S-XXXL)

AQUAFLOAT SUPERIOR TROUSERS

AquaFloat Trousers are designed for use with the matching jacket to form a fully approved buoyancy aid suit. Features reinforced knee and seat panels, a fully waterproof outer fabric with taped seams, and anti-flushing leg straps with easy-grip pull tabs for a secure fit.

Part Number: 1MQUA2N07 (S-XXXL)

NORTH SEA (ONE PIECE SUIT)

North Sea One-Piece Flotation Suit, ISO 15027: Class D certified, offers 2 hours of thermal protection in cold water. It features waterproof outer fabric with taped seams, anti-flushing straps on arms/legs, and a foldable hood stored in the neck for extra protection.

Part Number: Part number: 60038225 (S-XXXL) Black/Yellow, 60038226 (S-XXXL) Black/Red

NORTH SEA II - TWO PIECE SUIT

North Sea II is a two-piece flotation suit offering the same protection as the one-piece version, with added flexibility and comfort. Includes a waterproof jacket and trousers with taped seams, anti-flushing straps on arms and legs, and a foldable hood stored in the neck area.

Part Number: 1MIAA2N07 BLACK/HI-VIS YELLOW

X6 SUIT

X6 Suit is designed for extreme conditions, featuring reinforced knee and seat panels for superior abrasion resistance. Includes a high collar with a protective chin strap, a high-visibility yellow insulated peaked hood with built-in face protection (stowed in the collar), and a sleeve pocket with an ID pocket and whistle for added safety.

Part Number: 1MHSA2N07

X6 TROUSERS

X6 Jacket is designed for extreme conditions, featuring reinforced seat panels for enhanced abrasion resistance. Includes a high collar with a protective chin strap, a high-visibility yellow insulated peaked hood with built-in face protection (stowed in the collar), and a sleeve pocket with an ID pocket and whistle for added safety.

Part Number: 1MMYA2N07 (S-XXXL)

SMART SOLAS SUIT 1A

X6 Trousers are made for extreme conditions, featuring reinforced knee and seat panels for superior abrasion resistance. Made from fully waterproof fabric with taped seams, they also include anti-flushing leg straps with easy-grip pull tabs for a secure fit.

Part Number: 1MQVA2N07 (S-XXXL)

FLOATATION GARMENT

SMART THERMAL
FLOATATION LINER**Part Number:** 1MC6A2HM5 (S-XXXL)

A flexible thermal flotation liner designed to be added to the Smart 1A Suit, increasing protection levels to 6 hours when needed. Enhances insulation and buoyancy for improved safety in extreme conditions.

SMART
SOLAS SUIT 2A**Part Number:** 1MG4A2N07 (S-XXXL)

Smart SOLAS Suit 1A is a semi-dry suit with full SOLAS approval for immersion and anti-exposure. Offers flexibility for work and at least 1-hour thermal protection against cold water shock. Exceeds SOLAS buoyancy requirements and is compatible with Mullion SOLAS Hi-Rise 275N lifejackets.

URSUIT
BASIC

The Ursuit Basic is a durable, SOLAS-approved immersion suit designed for professional use. Made from breathable 4-Tex® fabric, it offers excellent protection, comfort, and visibility in demanding maritime conditions. Includes gloves, hood, and storage bag.

RDS
BLACK**Part Number:** RDS BLACK (S-XXL)

Specialized RDS Rapid Donning Suit for the offshore industry. Dual-approved to ETSO and SOLAS standards. Made from breathable, flame-resistant Gore-Tex Nomex. Features a detachable Outlast liner for temperature regulation and an open-neck design for quick donning and doffing.

RDS
WE**Part Number:** RDS WE (S-XXL)

A robust yet comfortable dry suit designed for demanding all-round use. Features an open-collar structure for quick donning and doffing, breathable and waterproof Gore-Tex fabric, heat-sealed taped seams, Cordura reinforcements on knees and back, and polyurethane boots with non-slip soles.

SEA
HORSE SAR**Part Number:** SEA HORSE SAR (S-XXL)

A durable yet comfortable dry suit designed for all-round use. Features an open-collar structure for quick donning and doffing, Gore-Tex® fabric with an ePTFE membrane for breathability and waterproof protection, and reinforced double-seam construction with heat-sealed taped seams for 100% waterproof performance.

FLOATATION GARMENT

MPS - MULTI PURPOSE SUIT

Part Number: MPS (S-XXL)

High-performance immersion suit for heavy professional use, trusted by defense forces, border guards, and sea rescue teams. Features a durable rubber exterior, super-stretch neoprene wrist seals, and enhanced warmth. Includes storage bag, neoprene gloves, hood, and beanie.

OTS MID-LAYER IMMERSION SUIT

Part Number: 1MHSA2N07 (S-XXXL)

An ultra-lightweight dry suit designed to be worn under normal clothing. Made from breathable Gore-Tex® to keep underlayers dry, even with non-breathable outerwear. Features double-seam construction, heat-sealed taped seams, integrated socks, and 2.5mm neoprene neck and wrist seals. Weighs under 1kg (size L).

ATACAMA PRO DRYSUIT

Part Number: 6556 (S-XL)

Atacama Pro drysuit designed for maximum dryness, comfort, and flexibility. Features 3-layer breathable technology, front-entry Aquaseal zip, articulated arms and legs, adjustable braces, and a stretch mesh back panel. Cordura-reinforced seat and knees for durability.

HORIZON DRYSUIT

Part Number: 6580 (S-XL)

Horizon drysuit with 3-layer breathable, waterproof technology. Features a twin neck seal system, latex wrist seals, fabric socks, and an adjustable waistband. Stretch mesh back panel, adjustable braces, and pre-articulated arms and legs for flexibility. Cordura-reinforced seat and knees for durability.

SEA HORSE ORANGE, BLACK, GREEN

Part Number: SEA HORSE RED, BLACK GREEN (S-XXL)

Specialized RDS Rapid Donning Suit for the offshore industry. Made from breathable, waterproof Gore-Tex® with an ePTFE membrane. Open-collar design for easy donning and ventilation. Reinforced double-seam construction with heat-sealed taped seams for full watertight protection.

1000 SERIES COASTGUARD PASSENGER SUIT

Part Number: Ask us for details

A top-quality immersion suit designed for the most demanding users. Features a superior ergonomic fit, a comfortable telescopic waist construction, and Gore-Tex® fabric with an ePTFE membrane for breathability and complete waterproof protection. Ensures dryness and performance in all conditions.

STORAGE BOXES

Versatile Storage Solutions for Lifejackets, Equipment, and More. Ideal for storing life-jackets, safety gear, and a wide range of equipment, these robust boxes offer durable and customizable storage options for maritime, offshore, and windmill applications.

Model	Length (mm)	Height (mm)	Width (mm)	Weight

MPC-8D	860	600	400	15 Kg

Height is specified respectively without and with backrest

KEY FEATURES:

- **Robust Construction:** Made with approximately 6 mm thick reinforced material for extra durability and stability.
- **Corrosion-Resistant Fittings:** All hinges and fittings are manufactured from high-quality stainless steel, ensuring long-lasting performance in harsh environments.
- **Flexible Design Options:** Available in 9 different sizes, with the choice of models featuring integrated backrests (model numbers ending with R).
- **Multi-Purpose Storage:** While designed primarily for lifejackets and safety equipment, these boxes are highly versatile and can be used for storing a variety of tools, supplies, and technical gear.
- **Customizable Colors:** Choose the color that best fits your vessel, installation, or company branding.
- **Personalized Design:** We can add any text, logo, or graphic you require, allowing you to fully customize the appearance to match your brand or operational needs

GRP PRODUCTS

LIFE JACKET CHEST - SOS506

Part Number: SOS506

JoBird SOS506 Life Jacket Chest provides secure, weather-resistant storage for up to 10 foam-filled lifejackets or immersion suits. Constructed from UV-stabilised polyethylene, it features a marine-grade bungee-secured lid for rapid access and an IP56 rating, ensuring durability in harsh marine environments.

LIFE JACKET CHEST - SOS510

Part Number: SOS510

JoBird SOS510 Life Jacket Chest offers secure, weatherproof storage for up to 14 adult life jackets. Constructed from durable, UV-stable GRP, it features a hinged lid and freestanding design, ensuring longevity in marine environments.

LIFE JACKET CHEST - SOS516

Part Number: SOS516

JoBird SOS516 Life Jacket Cabinet provides durable, weather-resistant storage for approximately 26 foam-filled life jackets or fewer immersion suits, depending on model. Designed for offshore environments, it ensures reliable protection and accessibility in harsh marine conditions.

FIRE EQUIPMENT LOCKER - RS450FF Type B

Part Number: RS450FF Type B

JoBird RS450FF Type B Fire Equipment Locker is engineered for naval applications, providing secure storage for firefighting gear. Constructed from Lloyd's-approved, UV-resistant composites, it features an IP56-rated enclosure and a durable aluminum roller shutter for confined spaces.

FIREFIGHTING EQUIPMENT CHEST - SOS505

Part Number: SOS505

JoBird SOS505 Firefighting Equipment Chest ensures secure, weather-resistant storage for marine firefighting gear. Made from UV-stabilised polyethylene, it features stainless steel fittings and bungee-secured lid, offering reliable protection in harsh conditions.

EMERGENCY EQUIPMENT CABINET - JB20EE

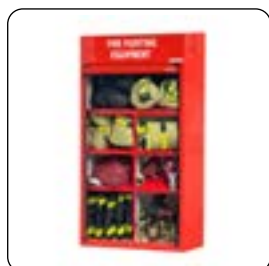

Part Number: JB20EE

JoBird JB20EE Emergency Equipment Cabinet provides secure, weather-proof storage for critical safety gear. Made from Lloyd's-approved GRP with stainless steel fittings, it ensures durability, rapid access, and protection in demanding marine environments.

FIRST AID LOCKER - RS450FF Type A

Part Number: RS450FF Type A

JoBird RS450FF Type A First Aid Locker offers secure, weather-resistant storage for medical equipment in marine environments. Constructed from Lloyd's-approved GRP with stainless steel fittings, it features a space-saving roller shutter door and IP56-rated protection.

DAMAGE CONTROL LOCKER - RS450DC

Part Number: RS450DC

JoBird RS450DC Damage Control Locker is engineered for secure storage of emergency equipment in marine environments. Constructed from durable, UV-resistant composites, it features a heavy-duty stainless steel drawer system and an aluminum roller shutter, ensuring quick access and protection against harsh conditions.

PERSONAL RECOVERY DEVICES

30-INCH 2,5KG ORANGE LIFE BOUY
CAN BE USED AT SEA OR FROM SHORE

Part Number: 330158

30" 2.5 kg lifebuoy is made with polyurethane foam and an HDPE F600 cover. Features SOLAS retroreflective tape for high visibility. Withstands a 100m drop height. Inner/outer diameter: 440/720 mm.

30-INCH 4KG ORANGE LIFE BOUY
CAN BE USED AT SEA OR FROM SHORE

Part Number: 330159

30" 4.3 kg lifebuoy is made with polyurethane foam and an HDPE F600 cover. Equipped with SOLAS retroreflective tape for visibility. Withstands a 100m drop height. Inner/outer diameter: 440/720 m

LIFE BOUY
NAME STICKER

Part Number: TEXT

Self adhesive stickers featuring the vessel's name and home port. Our stickers, are expertly designed to follow the concave features from the life buoy and, crafted to meet the harsh environmental requirements., Letter height: 30-60 mm

STAINLESS STEEL BRACKET
FOR 30" LIFE BOUY

Part Number: 330167

Stainless steel bracket designed for securely mounting a 30" lifebuoy. Durable and corrosion-resistant, it ensures reliable storage and quick access in emergency situations. Ideal for marine and industrial applications.

8MM LIFEBOUY LINE IN
PLASTIC CONTAINER

Part Number: 330168

Lifeline in plastic tube, which fits in MariTeam lifebuoys. Material: UV resistant polyethylene Dimensions: 480x130x80mm. Rope: Ø 8 mm, length 30 m. Breaking Load: 500 kg. Compliance with SOLAS requirements

SOLAS REFLECTIVE
TAPE

Part Number: 330189

The reflective tape is intended for re-lectorizing SOLAS life support equipment, such as life vests, life buoys, and life rafts. Roll size: 50mm x 45,7 m

MANOVERBOARD
Mk9

Part Number: 9537800

The Pains Wessex Manoverboard MK9 Compact Lifebuoy Marker features a self-activated LED lighting system that exceeds SOLAS requirements, offering a minimum light output of 2 candela for over 2 hours and producing dense orange smoke for 15 minutes.

HM-0600 LIFEBOUY
RELEASE SYSTEM MK II

Part Number: HM-0600

Complete package for electric/water release includes: GRP holder with metal holder, ERU with pre-installed cord, 1.5m cable, release switch (IP66, silky grey), connector box (IP66, steel grey), 20m grey cable (2x0.75mm), manual safety pin, pilot line, and installation/user guide. Other lengths available.

PERSONAL RECOVERY DEVICES

HM-0601 LIFEBOUY RELEASE SYSTEM MK II

Part Number: HM-0601

Package for electric/water release (without cable and connector box) includes: GRP holder with metal holder, ERU with pre-installed cord, 1.5m cable, release switch (IP66, silky grey), manual safety pin, pilot line, and installation/user guide. If mounted outside, use a protective enclosure. Max cable diameter: 12mm.

HM-0605 LIFEBOUY RELEASE SYSTEM MK II

Part Number: HM-0605

Complete package for electric/water release with flush mount Release Button includes: GRP holder with metal holder, ERU with pre-installed cord, 1.5m cable, Release Switch with push button and electronic switch module, connector box (IP66, steel grey), 20m grey cable (2x0.75mm), manual safety pin, pilot line, and installation/user guide. Other lengths available.

HM-0610 LIFEBOUY RELEASE SYSTEM MK II

Part Number: HM-0610

Included in the kit: One GRP holder with pre-installed metal holder., One manual safety pin in stainless steel, One pilot line for loading the lifebuoy, Installation manual and user guide

HM-0615 GRP HOLDER MKII

Part Number: HM-0615

With pre-install metal holder and bracket, Included in the kit: One GRP holder with pre-installed metal holder.

HM-0630 REPLACEMENT KIT LIFE BUOY SYSTEM MKII

Part Number: HM-0630

Lifebuoy Release, electric/water activation. ERU electric/water activation with release cord and installation manual in English. The ERU shall be changed every two years in order to have the same service interval as liferafts and EPIRBs.

HM-0650 LIFEBOUY RELEASE SYSTEM, VACUUM

Part Number: HM-0650

Included in the kit: One GRP holder with pre-installed metal holder. One MRU (Manual Release Unit) with cord pre-installed on the metal holder., One Vacuum Pump, One U-Console, 30 meters Stainless Steel Tubing, One manual safety pin in stainless steel, One pilot line for loading the lifebuoy, Installation manual, user guide and test of the LifeBuoy.

HM-0660 REPLACEMENT KIT LIFEBOUY RELEASE SYSTEM MKII

Part Number: HM-0660

The Hammar H20 Hydrostatic Release Unit (HM-0660) is a trusted choice for enhanced safety at sea. Designed for life rafts and EPIRBs, this reliable unit automatically activates when submerged, ensuring rapid deployment. Built with corrosion-resistant materials, it delivers consistent performance in harsh marine conditions.

HM-0406 REPLACEMENT KIT LIFEBOUY SYSTEM MK I

Part Number: HM-0406

With release cord, pilot line, metal ring, cable tie and installation manual in English. Note: For LifeBuoy Systems supplied until spring 2010. Product Specification: ERU electric/water activation. Breaking Strength: Cord sling: minimum 6 kN. Release Depth: 1,5 - 4 m

PERSONAL RECOVERY DEVICES

DAN L90 LED

Part Number: 63-400A WITH BATTERIES, NO BRACKET, 63-401A WITHOUT BATTERIES, NO BRACKET, 63-4003 BRACKET

The L90 operates on five alkaline batteries, providing a one-year lifespan. Robust and reliable, it activates automatically upon release. Exceeds IMO SOLAS regulations with a minimum 2CD output and a minimum 2-hour duration.

DAN L160

Part Number: 62-001A

DAN L160 is a SOLAS-approved lifebuoy light designed for marine safety. Featuring automatic activation upon water contact, it provides high-intensity illumination for reliable visibility in emergency situations. Compact, durable, and easy to install, it ensures compliance with safety regulations.

DAN L161

Part Number: 62-002A

DAN L161 is a SOLAS-approved lifebuoy light designed for marine safety. It provides a minimum 2CD output with a 2-hour duration and activates automatically upon water contact. Maintenance-free with a 5-year lifespan, it is compact, easy to install, and exempt from Class 9 transport requirements.

DAN L162

Part Number: 62-003A

DAN L162 is a SOLAS-approved lifebuoy light designed for marine safety. It provides a minimum 2CD output with a 2-hour duration and activates automatically upon water contact. Maintenance-free with a 5-year lifespan, it is compact, easy to install, and exempt from Class 9 transport requirements.

DAN L163

Part Number: 62-004A

The Daniamant L163 is the only USCG-approved intrinsically safe lifebuoy light with UL913 certification for Class 1 hazardous locations (Groups A, B, C & D) and ANSI/UL1196 compliance. It meets IMO SOLAS standards (2CD output, 2-hour duration) and USCG requirements with a 15-hour duration. SOLAS/MED & USCG approved, ATEX/IECEx certified, 5-year life, compact size, easy fitting, and exempt from Class 9 transport requirements.

DAN L170

Part Number: 61-001A WITH COMMERCIAL BRACKET

The L170 is available in two versions: a commercial version and a leisure version with a unique bracket for easy lifebuoy mounting. Both are fully SOLAS approved and differ only in the supplied bracket. 5-year life, no maintenance, suitable for commercial and leisure use, compact and robust design.

PERSONAL RECOVERY DEVICES

Safety at sea starts long before an emergency. With the right Personal Recovery Devices, every vessel is prepared to respond swiftly and effectively when it matters most. At MariTeam, we provide proven solutions that turn critical moments into life-saving outcomes—because every second counts, and every life matters.

PYROTECHNIC

RED

Handflare Mk8**Part Number:** 9529000

The Pains Wessex Red hand-held distress signal is designed for short-range use to pinpoint location by day or night. It burns brightly for 60 seconds at an intensity of 15,000 candela. The flare features a unique telescopic handle, making it compact and space-saving when stored in a liferaft or lifeboat. The handle is easily extended, and the flare is activated using a pull-wire mechanism.

WHITE

Handflare Mk8**Part Number:** 9527510

The White Handflare Mk8 is designed for use in both day and night situations to provide short-range collision warning and illuminate small areas. It is a compact and reliable distress signal device that features a fully extendable handle for ease of use and safety. The flare emits a bright white light, making it ideal for signaling in low-visibility conditions or during emergencies.

PARA RED

Rocket Mk8A**Part Number:** 9506720

The Pains Wessex Para Red MK8A Rocket is a long-range distress signal designed to conform to SOLAS 74/88 regulations as amended. Built to withstand extreme environmental conditions, it maintains performance reliability even after immersion in water.

LIFESMOKE

Mk9

The Pains Wessex Lifesmoke MK9 is a compact, flat-top, daytime distress signal designed for ease of handling and safety. It is intended for effective position marking during rescue operations and can also be used to indicate wind direction. The device emits dense orange smoke for a minimum duration of 3 minutes, making it highly visible in daylight conditions.

LARGE

Polybottle**Part Number:** 9569000

The Pains Wessex Large Polybottle is a robust and reliable storage solution for marine safety equipment. Built with durable, high-quality materials, it provides exceptional protection against harsh maritime environments. Its secure, watertight seal ensures your safety gear stays dry and ready for use when needed.

MANOVERBOARD

Mk9**Part Number:** 9537800

The Pains Wessex Manoverboard MK9 Compact Lifebuoy Marker features a self-activated LED lighting system that exceeds SOLAS requirements, offering a minimum light output of 2 candela for over 2 hours and producing dense orange smoke for 15 minutes.

LINETHROWER 250

- Complete

The Pains Wessex Linethrower 250 is a self-contained line-throwing appliance designed for maritime use. It consists of a durable plastic case with an end cap, 250 meters of line, an integral striker mechanism, and a rocket.

Part Number: 9500800LINETHROWER
250 Rocket

The Pains Wessex Replacement Rocket is specifically designed for use with the Linethrower 250 Body and Line container.

Part Number: 9502000

LINETHROWER 250

- Body and Line ONLY

The Linethrower 250 (Body and Line ONLY) is a self-contained line-throwing appliance designed for maritime and land use. It consists of a plastic launcher equipped with 250 meters of 4mm diameter line.

Part Number: 9500700**PainsWessex**

LIFE BOAT EQUIPMENT LIST

Our catalogue is designed to provide you with all the necessary information about lifeboat equipment, as required by the SOLAS regulations. According to SOLAS, all lifeboat equipment must be secured within the lifeboat by lashings, storage in lockers or compartments, storage in brackets or similar mounting arrangements, or other suitable means. This is to ensure that the equipment is readily available and easily accessible during an emergency.

The equipment must also be packed in a suitable and compact form, and should not interfere with any abandonment procedures. In addition, all items of lifeboat equipment should be as small and of as little mass as possible. Below you'll find a list of all the mandatory life boat equipment required by SOLAS regulations. For some equipment we have more than one solution. Besides the mandatory equipment we have a range of other life boat and life raft equipment of the following pages.

LIFE BOAT EQUIPMENT

ANTI-SEASICKNESS
TABLETS

1.

Anti-seasickness tablets for use in life-boats and life rafts. Contains 100 tablets

Part Number: 3302841

BOATHOOK WOODEN
SHAFT & TELESCOPIC

2.

Wooden pole with Galvanised hook

Part Number:
3302851
3 mtr,
3302852
5 mtr

Bouyant telescopic boathook. Adjustable from 123cm upto 219cm.

Part Number: 330285

BUOYANT
BAILER NON CORROSIVE

3.

For bailing out water accumulated in the bottom of the life-boat / liferaft.

Part Number: 330201

BUCKET
GALVANIZED

4A.

Galvanized bucket for lifeboat
10 Liter

Part Number: 330209

BUCKET
RUBBER

4B.

LIFEBOAT
BUCKET
RUBBER with
steel handle
and thimble.

Part Number: 44556318

BUOYANT
RESCUE QUOITS

5.

With line
for lifeboat

Part Number: 330212

LIFESMOKE Mk9

6.

The Pains Wessex Lifesmoke MK9 is a compact, flat-top, day-time distress signal designed for ease of handling and safety. It is intended for effective position marking during rescue operations and can also be used to indicate wind direction. The device emits dense orange smoke for a minimum duration of 3 minutes, making it highly visible in daylight conditions.

EMERGENCY DRINKING
WATER 5X100ML IN BAG

8.

Pains Wessex Emergency Drinking Water provides superior-quality drinking water for emergency survival. Approved world-wide for use on board lifeboats and liferafts, our emergency drinking water has been manufactured under stringent German hygiene quality control standards and is globally approved to meet ISO standard 18813:2022 and Directive (EU) 2020/2184.

Part Number: 9455000

DAYLIGHT
SIGNALLING
MIRROR

7.

For daylight signalling to ships and aircrafts.

Part Number: 330271

LIFE BOAT EQUIPMENT

EMERGENCY SURVIVAL RATIONS

Part Number: 9755000

9. Pains Wessex Emergency Rations provide high-energy food for emergency survival. Approved world-wide for use on board lifeboats and liferafts, our compact emergency rations have been developed to offer the highest quality rations manufactured under stringent German quality control standards.

CATEGORY C FIRST AID KIT

Part Number: 00585-ANP

10A.

Designed to meet the stringent maritime regulations, set by the UK Maritime and Coastguard Agency (MCA) MSN 1905, the ANP MCA Category C First Aid Kit is a must-have for all lifeboats and liferafts.

SOLAS LIFERAFT/LIFEBOAT FIRST AID KIT

Part Number: 03365-ANP

10B.

This kit is Lloyds' Register of Shipping Approved for use in lifeboats and liferafts used on ships registered outside the EU, this kit is highly recommended for all vessels, regardless of the voyage's purpose or duration.

LIFEBOAT COMPASS

Part Number: 330286

11.

Elegant and modern compass with multidirectional bracket. For better installation on any horizontal, ceiling or vertical surface. Card size: 85 mm. Card style: Conical. Card scale: Every 5.0 degrees Lighting: 12 V. Warranty: 5 years. Approved: MED

FLOATING KNIFE

12.

Floating Knife for Life boat or Liferaft

Part Number: 330253

RED HANDFLARE Mk8

13.

Pains Wessex Red hand-held distress signal is designed for short-range use to pinpoint location by day or night. It burns brightly for 60 seconds at an intensity of 15,000 candela. The flare features a unique telescopic handle, making it compact and space-saving when stored in a liferaft or lifeboat. The handle is easily extended, and the flare is activated using a pull-wire mechanism.

Part Number: 9529000

HATCHET FOR LIFEBOAT

14.

The Lifeboat Hatchet is a reliable safety tool with a sharp, durable blade and ergonomic grip, built to tackle emergencies at sea.

Part Number: 330203

JACK KNIFE

15.

A compact folding knife with various tools.

Part Number: 330251

LIFE SAVING SIGNALS (DOUBLE-SIDED)

16.

ISM safety procedures | IMPA 33.1559 Material: Photoluminescent 1.2mm rigid plastic

Part Number: MAS6071

HANDPUMP FOR LIFEBOAT

17.

Manual bilge pump for bailing water out of the lifeboat/liferaft. Supplied complete with 1 meter hose. The pump capacity is 0.5 litres/stroke.

Part Number: 330289

LIFE BOAT EQUIPMENT

CRUTCH FOR LIFEBOAT
OARS

18 A.

Heavy Duty Aluminum
Oarlock / Crutch. Gal-
vanized. 14mm spindle,
with 57mm opening

Part Number: 330288

OAR FOR ROWING
LIFEBOAT

18 B.

Wooden oar
for lifeboat.

Part Number: 330284 300cm
3302841 420cmOAR BOUYANT
FOR LIFEBOAT

18 C.

Length:
155cm

Part Number: 330283

FIRE EXTINGUISHER 2KG ABC DRY
POWDER

19.

Fire Extinguisher 2Kg
Dry Powder ABC 40%
with one seam vessel
Pressure Gauge Safe-
ty Release Valve. - me-
tallic bracket included.

Part Number: 17-0135212

INFLATABLE
RADAR REFLECTOR

20 A.

Mounted on life raft to enhance reflecti-
on from radar radiation. Made from, a high
density polymer, the outer inflated balloon
contains a radar reflective, metallic mesh as-
sembly. Conforms to the latest international
standards, such as IMO MSC.164(78) and
ISO8729-1:2010. Diameter (inflated): 460mm,
SPL (RCS): =7.5m2 (X band). Max Storage
Time: Five years.

Part Number: 330191

RADAR
REFLECTOR

20 B.

Radar reflector compes of 12 anodized
aluminium plates with core and caps,
made of plastic materials resistant to the
UV rays. For reflecting radar signals, back
to their source. Used to inform a position
to rescue squads while at open, sea. It is
recommended to install it at a height of
at least 3,5metres above the, sea level.

Part Number: 330190

PARA RED
Rocket Mk8A

21.

The Pains Wessex Para Red MK8A
Rocket is a long-range distress signal
designed to conform to SOLAS 74/88
regulations as amended. Built to
withstand extreme environmental con-
ditions, it maintains performance reli-
ability even after immersion in water.

Part Number: 9506720

RUSTPROOF DIPPER
WITH LANYARD

22.

Part Number: 330210

GRADUATED DRINKING
VESSEL

23.

Graduated
drinking cup.

Part Number: 330241

SEA ANCHOR
WITH HAWSER

24.

Ø: 125cm, 250cm
made of strong PVC
with internal webbing.

Part Number: 330216

LIFE BOAT EQUIPMENT

SEARCH LIGHT

12 Volt 50 Watt Halogen,
Solas Approved

25.

Part Number: 330263

FISHING TACKLE

26.

Contains hooks, lines and other equipment. Watertight packed., A guide book for survival at sea to meet the requirement of the SOLAS, convention.

Part Number: 330254

SURVIVAL GUIDE BOOK

27.

Compact and essential guide for emergencies at sea. Covers survival priorities, use of life-saving appliances, first aid, water and food rationing, and signaling. Complies with SOLAS requirements for inclusion in lifeboats and life rafts.

Part Number: 330256

LIFEBOAT SPONGE

28.

Durable and lightweight yellow synthetic sponge designed for quickly absorbing water in lifeboats, life rafts, and general marine use.

Part Number: 330221

TINOPENER FOR LIFEBOAT

29.

Robust tin opener designed for emergency use at sea.

Part Number: 330249

LIFEBOAT TOOLKIT

30.

Toolkit includes hammer, adjustable wrench, pliers, screwdrivers (straight & Phillips), scissors, utility knife with 6 blades, 3m measuring tape, arch file with 5 leaves, Allen keys (1.5 to 6mm), T-screwdrivers with ratchets, Allen screws, Torx bits, and peaks (5 to 13mm). Comes in a molded plastic drawer.

Part Number: 44553834

31.

THERMAL PROTECTIVE AID

Thermal Protective Aid (TPA) is an aluminized polyethylene suit with heat, sealed seams that protects from the elements and prevents hypothermia.

Part Number: 330196

WATERPROOF TORCH WITH SPARE BULB AND BATTERIES - SOLAS

32.

>4,3 Candela light intensity. Flange mount. Small, robust and compact. 10-30v DC external power

Part Number: 70-001A

MARINE GRADE WHISTLE

33.

Marine Grade Whistle for Lifeboats

Part Number: 320212

LIFE BOAT EQUIPMENT

LIFEBOAT POLYESTER REPAIR SET

Part Number: 44555218

In this repairset you will find all the necessary material to strengthen, stop-up and, repair polyester equipment., This set contains:, Polyester resin 250 ml, Hardener 10ml, Glass-sheeting for stiffness, Glass tissue for strength, Mixing cup, Mixing spoon, Brush, Gloves

WOODEN PLUG FOR LIFEBOAT

Part Number: 44556171 hole diam. 1", 44556172 hole diam. 1 1/2", 44556173 hole diam. 2", 44556174 hole diam. 2 1/2", 44556175 hole diam. 3", 44556176 hole diam. 4", 44556177 hole diam. 5"

TEAR-AID TYPE B

Part Number: 331404

STORAGE CONTAINER FOR LIFEBOAT

Part Number: 331317 6 liter, 331318 12 liter, 331319 26 liter

DITTY BAG FOR LIFEBOAT

Part Number: 320159

WATERPROOF GRAB BAG

Part Number: 331405

MEMBRANE HANDPUMP FOR LIFEBOAT

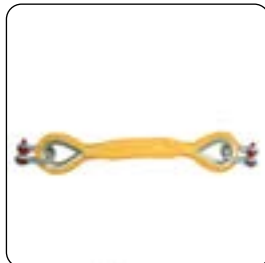

Part Number: 330272

LIFEBOAT WINDPROOF MATCHES

Part Number: Storm Match

FPD LIFEBOAT FALL PREVENTER DEVICE

Part Number: 331402

LIFEBOAT STATIC SEATBELT 2-POINT.

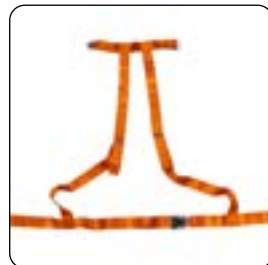

Part Number: 3314026 – BLUE
3314025 – ORANGE

LIFEBOAT SEATBELT 3-POINT ADJUSTABLE

Part Number: 3314023 – BLUE
3314023 – ORANGE

LIFEBOAT SEATBELT 4-POINT ADJUSTABLE

Part Number: 3314021 - BLUE
3314021 – ORANGE

LIFERAFT EQUIPMENT

LIFERAFT STRAP C/W SLIPHOOK

Part Number: 330294

Cradle Webbing Strap for Adjustable Leisure Liferaft Cradle. This innovative webbing kit is fully adjustable and gives a quick release solution. At the same time, it provides the basis for hydrostatic release integration with the standard, universal cradle.

MANUAL EASY RELEASE HOOK

Part Number: HR-0520

The Hammar Easy Release manual release hook, only manual, is strong and can withstand 15kN lashing load. It is easy to release, even under high lashing load and with only one hand. Can be used in installations where float free arrangement is not required. This Easy Release model do not need a Hammar H20 for the installation. Product Specification: Only manual, max working load 15 kN

EASY RELEASE

Part Number: HR-0500

THE HAMMAR EASY RELEASE MANUAL RELEASE HOOK IS STRONG and, can withstand 15kN lashing load. It is easy to release, even under high lashing, load and with only one hand. The Hammar Easy Release fits all H20 raft, models. Longer connection wire to the lashing is available upon request. Manual Release Hook, stainless steel, max working load 15 kN, Weight:0.2kg

Safety Pin TO EASY RELEASE

Part Number: HR-0501

H20 STANDARD SOLAS MODEL (YELLOW)

Part Number: HR-0100

This model is designed for liferafts from 6 up to 150 persons. English top label. Supplied in a box with step-by-step mounting instruction for the liferaft container. Approvals: EC approved Breaking Strength: White rope sling: minimum 15 kN, Weak link: 2,2 +/- 0,4 kN according to SOLAS regulations Release Depth: 1,5 - 4 m

H20 STANDARD SOLAS MODEL (YELLOW)

Part Number: HR-0102

This model is designed for liferafts from 6 up to 150 persons. USCG approved., English top label. Supplied in a box with step-by-step mounting instruction, for the liferaft container., Approvals: USCG/EC approved, Breaking Strength: White rope sling: minimum 15 kN, Weak link: 2,2 +/- 0,4, kN according to SOLAS regulations, Release Depth: 1,5 - 4 m

H20 STANDARD SOLAS MODEL (YELLOW)

This model is designed for liferafts from 6 up to 150 persons. USCG approved., English top label. Supplied in a box with step-by-step mounting instruction, for the liferaft container., Approvals: Canada TC/EC approved, Breaking Strength: White rope sling: minimum 15 kN, Weak link: 2,2 +/- 0,4, kN according to SOLAS regulations, Release Depth: 1,5 - 4 m

Part Number: HR-0103

LIFERAFT EQUIPMENT

H2O SMALL RAFT

MODEL (DARK GREEN)

Part Number: HR-0200

The lower strenght of the weak link will allow smaller liferafts to break, and release the inflated life raft. Suitable for smaller fishing, yacht and, recreational life rafts., This model is designed for liferafts from 4 to 12 persons AND outside SOLAS, regulations. English top label. BV Type approved and USCG approved., Product Specification: 4-12 persons rafts outside SOLAS regulation, Breaking Strength: White rope sling: minimum 15 kN, Weak link 1,2 +/- 0,4 kN, Release Depth: 1,5 - 4 m

WEAK LINK

COMPLETE

Part Number: HR-0113

THIS MODEL IS DESIGNED TO BE USED IN AN APPLICATION WHERE THE, standard weak link is not suitable. Breaking strength 2,2 +/- 0,4kN according to, SOLAS regulation. Total length 230mm.

WHITE BRAIDED POLYESTER LINE,
8MM DIAMETER

White strong rope for use in combination with Hammar H2O. BREAKING STRENGTH MINIMUM 15KN. SUPPLIED BY METRE IN BULK.

Part Number: HR-0114

WEAKLINK
SYSTEM

A weak link for deck mount for use when rafts painter line is transferred to, other position than H20 HRU., Breaking Strength: 2,2 +/- 0,4kN

Part Number: HR-0190

SHACKLE

LENGTH 78MM AND WIDTH 32MM. PRODUCT SPECIFICATION: STAINLESS STEEL, LONG MODEL, 8MM

Part Number: TR-0004

SENHOUSE
SLIPHOOK

Pelican type slip hook for manual release of Life Rafts, Stainless steel, 195 mm long, Breaking Strength: 17 kN +/- 10%, Weight: 0.2kg, Maximum working load 15kN.

Part Number: TR-0001

MariTeam

Everlux Maritime is MariTeams trusted partner IMO Signage

Everlux Maritime are pioneers in the industry, we are proud to present the cutting-edge IMO signage designed specifically for ships. With a firm commitment to safety and compliance, the products are engineered to meet the stringent regulations set by the International Maritime Organization (IMO).

Why Choose Everlux Maritime IMO Signage?

Unparalleled Quality: Our IMO signage is manufactured using top-grade materials, ensuring durability and longevity even in harsh marine environments. We prioritize quality to guarantee that our signs remain highly visible and legible, maximizing safety onboard.

Compliance Assurance: We understand the importance of adhering to IMO regulations. Our signage solutions are meticulously crafted to meet the specific requirements outlined in SOLAS (Safety of Life at Sea) and other applicable IMO standards. By choosing Everlux Maritime, you can trust that your vessel will be fully compliant.

Enhanced Visibility: Safety should never be compromised due to poor visibility. Our IMO signage features high-quality photolumi-

nescent technology, enabling clear visibility even in low light or emergency situations. This ensures swift and efficient evacuation procedures and enhances crew and passenger safety.

Customizable Solutions: We recognize that every vessel is unique. That's why we offer customizable IMO signage solutions to meet your specific needs. Our experienced team can tailor the signs to match your vessel's layout, ensuring optimal placement and functionality.

Global Reach: Wherever your vessel may be, we can ship high-quality IMO signage and comprehensive support to enhance safety onboard.

 **Everlux®**
Maritime photoluminescent safety signs

FIREMAN'S OUTFIT

FIRE FIGHTER INTERVENTION

SUIT (JACKET + TROUSERS)

Part Number: 330925-x

Fire-resistant garment with a two-layer aramid thermal barrier. Breathable, water-repellent outer shell. Touch-and-close sleeve and collar fastening. Front zip closure under flap. Triple-trim reflective tape for high visibility. Sizes: S - XXXL. Approvals: EN 469:2020, EN 1149-5:2018, EN ISO 13688:2013, SOLAS, MED.

FIRE

HELMET

Part Number: 330921

Fire helmet, EN 443:2008, EN 14458:2004, EN 166:2001, MED. Type A3b, E2 insulation. Shock absorber, penetration-resistant, reflective elements. Includes neck protector (aramid, Nomex, or wool). Fire-retardant aramid chinstrap. Resistant to chemicals, flames, heat, and molten metal.

NOMEX BALACLAVA

FOR FIREMAN'S OUTFIT

Part Number: 310536

The Flame retardant anti-flash hood is a lightweight balaclava which protects the firefighters face, neck and head from extreme radiating heat and flame.

FIRE BELT

HEAVY TYPE

Part Number: 131085

Fire Belt, Heavy type, with Ring for Suspension of the Refractory Rope. May be used with 6lt breathing apparatus to cover MED certification requiring the use, of rope and belt.

SAFETY

BELT

Part Number: 330960

Approved according to EN 358-1999 -DIN 14927:2005, KEY FEATURES, Washable, Flame retardant, Fuel oil resistant and slip resistant rubber outsole, Material Polyester / Aluminium, Body Width 1000-1100mm

FIRE AXE

+ POUCH

Part Number: 330968

Approved according to EN 358-1999 -DIN 14927:2005, KEY FEATURES, Length 34cm, Insulated rubber handle, High voltage resistance 2000V, Leather pouch for belt mounting

HEAVY DUTY FIRE RESCUE

AXE LARGE 900MM

Part Number: 330961

With wide cutting blade and small lifting end. Enforced with secured zinc clip. Red coated head, Ash wood steel, 900 mm long, about 2.5 kg

RUBBER

BOOTS

Part Number: 330924x

Flame-retardant boots, EN 11612 A1 B1 C1, EN 61482-1-1 Class 1. Sizes: EU 40-48. Heat, chemical, and cold-resistant rubber upper. Slip and fuel oil-resistant outsole. Withstands 18kV. Steel midsole and toe cap (EN ISO 20345). Woven cotton canvas lining.

FIREMAN'S OUTFIT

FIRE GLOVES

Part Number: 330925x

Fire gloves, EN 659:2003/A1:2008 SOLAS approved. Cow-nappa leather with cut-resistant para-aramide lining. Eurotex membrane. Elastic wrist tightening. Kevlar thread. Sizes: 9-12.

FIRE SAFETY LINE, 30 METERS

Part Number: 330970

Steel wire with snaphooks, Length: 30 meters, Material: Stainless steel, Diameter of wire: 5mm, Material of hook: Stainless steel

CROW BAR

Part Number: 2399-050

LED INTRINSICALLY SAFE FLASHLIGHT

Part Number: 792266

CLASS I DIV 1: GRPS A-D T3, Momentary or constant-on flashlight, Impact & chemical resistant, LED technology, Powered by 3 AA batteries (not included), Built-in pocket/belt clip.

LED INTRINSICALLY SAFE PENLIGHT

Part Number: 792272

Adalit L1 professional penlight for hazardous environments (ATEX Zone 0/20). Lightweight, durable, and versatile. Features a built-in neodymium magnet for hands-free use and a universal helmet adapter.

NIGHTSTICK XPR-5568RX LED/ ATEX

LED rechargeable intrinsically safe dual-light. Head rotates 90° for precise beam direction. 50,000+ hour LED lifespan. Parabolic reflector for a focused beam. Dual-light mode for maximum visibility and safety. Glass-filled nylon polymer housing. Stainless steel pocket clip. Waterproof, impact, and chemical resistant. Powered by rechargeable lithiumion battery (included) or 3 AA batteries (not included) with AA battery carrier (included).

Part Number: 792268

FIREFIGHTER STORAGE BAG

Durable and spacious firefighter storage bag with a universal design. Features a bright red color for high visibility, ideal for storing firefighting gear and equipment.

Part Number: 330927

FIRE EXTINGUISHER

1KG ABC
DRY POWDER

Part Number: 17-0135211

with one seam vessel. Pressure Gauge Safety Release Valve, metallic bracket included., Extinguishing Agent ABC 40%, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 1,24 lt, Cylinder Height 270±2 mm, Cylinder Diameter 85±1 mm

2KG ABC
DRY POWDER

Part Number: 17-0135212

ABC 40% with one seam vessel Pressure Gauge Safety, Release Valve. - metallic bracket included., Extinguishing Agent ABC40%, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 2,4 lt, Cylinder Height 310 ±2 mm, Cylinder Diameter 110 ±1 mm

6KG ABC
DRY POWDER

Part Number: 17-0135214

with one seam vessel and Pressure Gauge Safety Release Valve. -Metallic Bracket Included., Extinguishing Agent ABC 40%, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 7,8 lt, Cylinder Height 450 ± 5 mm, Cylinder Diameter 160 ± 1.5 mm, Cylinder Neck Thread M30x1,5

9KG ABC
DRY POWDER

Part Number: 17-0135215

with one seam vessel, metallic bracket. Includes pressure gauge & safety release valve. ABC40% agent. Operating temp: -30 to +60°C. Max pressure: 18 bar, test: 27 bar. Volume: 11.2L. Cylinder: H 510 ±5 mm, Ø 180 ±1.5 mm.

12KG ABC
DRY POWDER

Part Number: 17-0135216

with one seam vessel. Pressure Gauge Safety Release Valve. - metallic bracket, included, Extinguishing Agent ABC 40%, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 13Lt lt, Cylinder Height 535 ± 5 mm, Cylinder Diameter 190 ± 1.5 mm, Cylinder Neck Thread M30 ± 1.5mm

AUTOMATIC FIRE BALL
1.3KG DRY POWDER

Part Number: 17-0135205

ABC 90% dry powder automatic fire extinguisher in a ball shape. Activates automatically at 70°C when placed on a special bracket or by throwing it into the fire. No need to approach flames. Suitable for electrical cabinets, servers, flammable materials, chemical canisters, solid fuels, and risk areas. Emits a sound as a fire alarm. Gross weight: 1.3±0.2 kg.

6LT 1,5%
ECO FOAM

Part Number: 17-0501080

with one seam vessel with an internal plastic layer and Pressure Gauge Safety Release, Valve. Filled with environmentally friendly Foam. Metallic bracket included, Extinguishing Agent BSX233 1,5%, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 7,9 lt, Cylinder Height 470 ± 5 mm, Cylinder Diameter 160 ± 1,5 mm

9LT 1,5%
ECO FOAM

Part Number: 17-0501081

with one seam vessel with an internal plastic layer and Pressure Gauge Safety Release, Valve. Filled with environmentally friendly Foam. Metallic bracket, Extinguishing Agent BSX233 1,5%, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 11 lt, Cylinder Height 525 ± 5 mm, Cylinder Diameter 180 ± 1,5 mm

FIRE EXTINGUISHER

WET 6LT ABF

Part Number: 17-0501076

with one seam vessel with INTERNAL PLASTIC LAYER and Pressure Gauge Safety, Release Valve. - metallic bracket included., Extinguishing Agent Eco Dare ABF -30J C/M, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 7,7 lt, Cylinder Height 470 ± 5 mm, Cylinder Diameter 160 ± 1,5 mm

WET 9LT ABF

Part Number: 17-0501077

with one seam vessel with INTERNAL PLASTIC LAYER and Pressure Gauge Safety, Release Valve. - metallic bracket included., Extinguishing Agent Eco Dare ABF -30J C/M, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 11 lt, Cylinder Height 525 ± 5 mm, Cylinder Diameter 180 ± 1,5 mm

6LT WATER

Part Number: 17-0501034

with one seam vessel with INTERNAL PLASTIC LAYER and Pressure Gauge Safety, Release Valve. - metallic bracket included., Extinguishing Agent Water, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 7,7 lt, Cylinder Height 470 ± 5 mm, Cylinder Diameter 160 ± 1,5 mm

9LT WATER

Part Number: 17-0501028

with one seam vessel with INTERNAL PLASTIC LAYER and Pressure Gauge Safety, Release Valve. - metallic bracket included., Extinguishing Agent Water, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 11 lt, Cylinder Height 525 ± 5 mm, Cylinder Diameter 180 ± 1,5 mm

6LT WATER MIST

Part Number: 17-0135371

with one seam vessel with INTERNAL PLASTIC LAYER and Pressure Gauge Safety, Release Valve. - metallic bracket included., Extinguishing Agent Water, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 10,3 lt, Cylinder Height 468 ± 2 mm, Cylinder Diameter 182 ± 2 mm

6LT WATER MIST WITH ADDITIVE

Part Number: 17-0501104

with one seam vessel with INTERNAL PLASTIC LAYER and Pressure Gauge Safety, Release Valve. - metallic bracket included. 100% Fluorine Free., Extinguishing Agent Water with 20% additive, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 11 lt, Cylinder Height 525 ± 5 mm, Cylinder Diameter 180 ± 5 mm

2KG CO2 EXCLUSIVE

Part Number: 17-0135259

with High Strength Front Outlet. Galvanized bracket included, Extinguishing Agent CO2, Operating Temperature -20 to +60 °C, Max Allowable Pressure 174 bar, Test Pressure 250 bar, Volume of Equipment 3 lt, Cylinder Height 415±1,5 mm, Cylinder Diameter 114 ± 1,14 mm, Approx. Dimensions 600 x 170 mm

5KG CO2

Part Number: 17-0135162

with EDPM discharge hose with horn and wooden handle. Galvanized bracket included, Extinguishing Agent CO2, Operating Temperature -30 to +60 °C, Max Allowable Pressure 174 bar, Test Pressure 250 bar, Volume of Equipment 7,5 lt, Safety Valve 225 ± 25 bar, Approx. gross Weight 18,9 kg, Approx. Dimensions 665 x 210 mm

FIRE EXTINGUISHER

6KG

DRY POWDER

Part Number: 17-0135289

Knob-Operated - metallic bracket included., Extinguishing Agent ABC 40%, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 7,8 lt, Safety Valve 21-26 bar, Approx. gross Weight 9,34 kg, Approx. Dimensions 600x210 mm

9KG

DRY POWDER

Part Number: 17-0135290

Knob-Operated - metallic bracket included., Extinguishing Agent ABC 40%, Operating Temperature -30 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 11,1 lt, Approx. gross Weight 14,5 kg, Approx. Dimensions 640x230 mm

6LT

ECO FOAM

Part Number: 17-0135311

Knob-Operated - metallic bracket included., Extinguishing Agent BSX233 1,5%, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 7,75 lt, Safety Valve 21-26 bar, Approx. gross Weight 11 kg, Approx. Dimensions 600x210 mm

9LT

ECO FOAM

Part Number: 17-0135312

Knob-Operated - metallic bracket included., Extinguishing Agent BSX233 1,5%, Operating Temperature +5 to +60 °C, Max Allowable Pressure 18 bar, Test Pressure 27 bar, Volume of Equipment 11 lt, Safety Valve 21-26 bar, Approx. gross Weight 15,5 kg, Approx. Dimensions 655x230 mm

6LT

WATER

Part Number: 17-0135385

Knob-Operated with one seam vessel with INTERNAL PLASTIC LAYER- metallic bracket included., Extinguishing Agent Water, Operating Temperature +5 to +60 °C, Max Allowable Pressure 20 bar, Test Pressure 30 bar, Volume of Equipment 7,8 lt, Safety Valve 21-26 bar, Approx. gross Weight 11 kg, Approx. Dimensions 600x210 mm

9LT

WATER

Part Number: 17-0135386

Knob-Operated with one seam vessel with INTERNAL PLASTIC LAYER- metallic bracket included., Extinguishing Agent Water, Operating Temperature +5 to +60 °C, Max Allowable Pressure 20 bar, Test Pressure 30 bar, Volume of Equipment 11,17 lt, Safety Valve 21-26 bar, Approx. gross Weight 15,5 kg, Approx. Dimensions 655x230 mm

TROLLEY FIRE EXTINGUISHER

25KG DRY POWDER

Part Number: 17-0135202

Fire extinguisher with a 5m discharge hose and a valve with a pressure gauge safety release mechanism. Features a third front wheel for easier handling. Agent: ABC 40%. Operating temp: -30 to +60°C. Max pressure: 18 bar, test: 27 bar. Safety valve: 22-28 bar. Volume: 30L. Gross weight: 60.5 kg. Dimensions: 1000x390 mm.

TROLLEY FIRE EXTINGUISHER

50KG DRY POWDER

Part Number: 17-0135203

Fire extinguisher with a 5m discharge hose and a valve with a pressure gauge safety release mechanism. Features a third front wheel for easier handling. Agent: ABC 40%. Operating temp: -20 to +60°C. Max pressure: 18 bar, test: 27 bar. Safety valve: 22-28 bar. Volume: 56L. Gross weight: 85.5 kg. Dimensions: 1200x550 mm.

FIRE EXTINGUISHER

TROLLEY FIRE EXTINGUISHER 100KG DRY POWDER

Fire extinguisher equipped with a 5m discharge hose and a valve featuring a pressure gauge safety release mechanism. Designed with a third front wheel for enhanced maneuverability. Extinguishing agent: ABC 40%. Operating temperature range: -30 to +60°C. Maximum allowable pressure: 21 bar. Approximate gross weight: 149 kg. Dimensions: 1400x600 mm.

Part Number: 17-0135234

TROLLEY FIRE EXTINGUISHER 25LT FOAM

Fire extinguisher with a 5m discharge hose and an internal plastic-lined vessel. Features a third front wheel for easier handling. Agent: BSX233 1.5%. Operating temp: +5 to +60°C. Max pressure: 18 bar. Gross weight: 59.6 kg. Dimensions: 1100x420 mm.

Part Number: 17-0135085

TROLLEY FIRE EXTINGUISHER 50LT FOAM

Fire extinguisher with a 5m discharge hose and internal plastic-lined vessel. Features a third front wheel for easier handling. Gun-type controlled nozzle with advanced materials and stainless steel springs to prevent hose deformation. Agent: BSX233 1.5%. Operating temp: +5 to +60°C. Max pressure: 18 bar. Gross weight: 94.8 kg. Dimensions: 1300x500 mm.

Part Number: 17-0135033

TROLLEY FIRE EXTINGUISHER 100LT FOAM

Fire extinguisher with a 5m discharge hose and an internal plastic-lined vessel. Features a third front wheel for easier handling. Gun-type controlled discharge nozzle with advanced materials and stainless steel springs to prevent hose deformation. Agent: BSX233 1.5%. Operating temp: +5 to +60°C. Safety valve: 22-28 bar. Gross weight: 105.5 kg. Dimensions: 1400x550 mm.

Part Number: 17-0501049

10KG CO2

with 5m EPDM Discharge Hose., Extinguishing Agent CO2, Operating Temperature -20 to +60 °C, Approx. gross Weight 63,8 kg, Approx. Dimensions 1100x400 mm

Part Number: 17-0129000

30KG CO2

with 5m EPDM Discharge Hose Wooden Handle and Flow Control Valve, Heavy Duty, Carriage and wheels, Valve Protection handle., Extinguishing Agent CO2, Operating Temperature -20 to +60 °C, Approx. gross Weight 80 kg, Approx. Dimensions 1400x500 mm

Part Number: 17-0129001

TROLLEY FIRE EXTINGUISHER

10KG CO2

2x5KG CO2 with Heavy Duty Trolley of Two Cylinders (7,5Lt) with 5m EPDM Discharge, Hose., Extinguishing Agent CO2, Operating Temperature -20 to +60 °C, Approx. gross Weight 63,4 kg, Approx. Dimensions 1100x500 mm

Part Number:
17-0129004

FIRE EXTINGUISHER

F/E POWDER ABC

40% CARTON BOX 6KG

Part Number: 17-0123067

Fire extinguishing Powder ABC40%, Special sealed package in carton box!, 6Kg \pm 2% according to EN3-7 for refilling of 6Kg fire extinguishers

F/E POWDER ABC

40% CARTON BOX 25KG

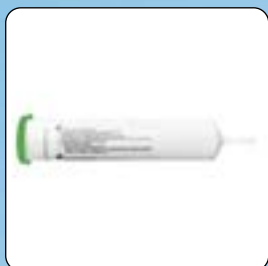

Part Number: 17-0123056

Fire extinguishing Powder ABC40%, Special sealed package in carton box., Carton box of 25 Kg

FLOATING FOAM CARTRIDGE

FOR 6LT FOAM FIRE EXTINGUISHERS

Part Number: 17-0123108

Fire Extinguishing Foam 1,5%. Floating Foam Cartridge for Use on 6Lt Foam, Fire Extinguishers with Internal Cartridge. Contains 90ml Foam AFFF. It Makes, Maintenance and Refilling of Foam fire Extinguishers with Internal Cartridge, a Simple, Process.

FLOATING FOAM CARTRIDGE

FOR 9LT FOAM FIRE EXTINGUISHERS

Part Number: 17-0123109

Fire Extinguishing Foam 1,5%. Floating Foam Cartridge for Use on 9Lt Foam, Fire Extinguishers with Internal Cartridge. Contains 135ml Foam AFFF. It Makes, Maintenance and Refilling of Foam fire Extinguishers with Internal Cartridge, a Simple, Process.

SPARE FOAM BOTTLE

1,5% - 90ML

Part Number: 17-0501107

Foam 1,5% in 90ml Bottle Suitable for replenishment with 1.5% for the 6lt models, (0135311, 0135497)

SPARE FOAM BOTTLE

1,5% - 135ML

Part Number: 17-0501108

Foam 1,5% in 135ml Bottle Suitable for replenishment with 1.5% for the 9lt models, (0135312, 0501026)

1 SPARE INT. CARTRIDGE FOR F. E. 6LT

Spare Internal Cartridge for ABF-Wet Chemical / Foam. Fire Extinguishers. Include, special plastic external coating anti-oxidation. Thread: Ø16 1,5mm. L: 282mm, Capacity CO2: 65gr. D: 28mm

Part Number: 17-0128066

2 SPARE INT. CARTRIDGE FOR F. E. 9LT

Spare Internal Cartridge for ABF-Wet Chemical / Foam. Fire Extinguishers. Include, special plastic external coating anti-oxidation. Thread: Ø16 1,5mm

Part Number: 17-0128038

3 SPARE INTERNAL CARTRIDGE FOR F. E. 6KG

Spare Internal Cartridge for Dry Powder Fire Extinguisher 6kg, Thread: Ø16 1,5mm. L: 270±10 mm. Capacity CO2: 120gr

Part Number: 17-0128039

4 SPARE INTERNAL CARTRIDGE FOR F. E. 6KG

Spare Internal Cartridge for Dry Powder Fire Extinguishers 12kg, Thread: Ø16 1,5mm. L: 380±10 mm. Capacity CO2: 180gr. D: 35mm

Part Number: 17-0128038

FIRE CABINETS

PLASTIC TRANSPORTATION
PROTECTIVE BOX FOR
1KG/1LT FIRE EXTINGUISHER

Part Number: 17-0133002

PLASTIC TRANSPORTATION
PROTECTIVE BOX FOR
2KG/2LT FIRE EXTINGUISHER

Part Number: 17-0133035

HEAVY DUTY
PVC COVER 6KG & 6LT

Part Number: 17-0133047

HEAVY DUTY
PVC COVER 9KG/12KG/9LT

Part Number: 17-0133048

PLASTIC
KEY BOX

Part Number: 17-0134005

PLASTIC PROTECTIVE BOX
(TRANSPARENT) 6KG / 6LT

Part Number: 17-0132108

PLASTIC PROTECTIVE BOX
(TRANSPARENT) 9KG/12KG
& 9LT FIRE EXTINGUISHER

Part Number: 17-0132109

POLYESTER PROTECTIVE BOX
FOR 6KG/LT FIRE EXTINGUISHER

Part Number: 17-0132026

Suitable for
Outdoor Use
and Hard We-
ather Condi-
tions - e.g. near
the sea., Dimen-
sions: 28 x 65 x
22,5 cm

POLYESTER PROTECTIVE
BOX 12KG/9LT

Part Number: 17-0132027

Suitable for
Outdoor Use
and Hard We-
ather Condi-
tions - e.g. near
the sea., Dimen-
sions: 30 x 75 x
22,5 cm

METALLIC EMERGENCY
KEY BOX

Part Number: 17-0147162

Metallic Emer-
gency Key Box,
with a small
hammer for
breaking the
glass., SIZE:
16x5x12cm

NYLON PROTECTIVE
COVER 6KG/6LT/2KG CO2

Part Number: 17-0133019

Nylon Protec-
tive Cover of
High Strength
and Water Pro-
of for Outdoor
placed Fire,
Extinguishers.

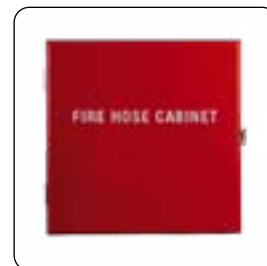

NYLON PROTECTIVE
COVER 12KG/9LT/5KG CO2

Part Number: 17-0133020

Nylon Protec-
tive Cover of
High Strength
and Water Pro-
of for Outdoor
placed Fire,
Extinguishers.

POLYESTER FIRE HOSE
CABINET WITH HOOK

Part Number: 17-0132057

Suitable in
Rough Weather
Conditions (e.g.
near the sea)., Dimensions: 420
x 420 x 210 mm

FIRE CABINETS

PLASTIC PROTECTIVE BOX FOR 6KG/6LT FIRE EXTINGUISHERS

Part Number: 17-0132096

Sealing Rubber and also belts for fire extinguishers are included., Also use for Plastic Protective Storage Box of 1pc Emergency Escape Breathing, Aparatus., Dimensions: 620x335x240 mm

PLASTIC PROTECTIVE BOX 6-9-12KG/6-9LT/5KG CO2

Part Number: 17-0132062

Plastic Protective Box Heavy Duty for 6-9-12Kg / 6-9Lt /5Kg CO2 F/E. Sealing Rubber and, also belts for fire extinguishers included., Dimensions: 820 x 270 x 250 mm

FOAM CABINET - "SPARTAN"

Part Number: 17-0132110

Galvanized steel 1.2mm, RAL3000. Hose reel with arm bracket. 2" stainless steel pipe. 2" brass angle valve. Foam mixer 400 L/min with 2" aluminium Storz couplings. Rigid foam suction hose with filter. 2" foam nozzle with aluminium Storz couplings. 2" high-quality hose, 30m, WP 8 bar, with aluminium Storz couplings. Two 25L foam canisters.

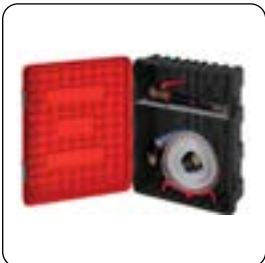

FIRE TOOL STATION BIG

Part Number: 17-0131084

with a place for Mask Breathing 6lt, Electrostatic Coating RAL 3000, UV protection, Dimensions: 800 x 700 x 350 mm, (Products in photos are not included)

PLASTIC CABINET FOR FIRE HOSE AND BRANCHPIPE

Part Number: 17-0132175

Plastic cabinet for fire hose and branchpipe, suitable for marine use. Outer dimensions: 616 x 735 x 270 mm. Inner dimensions: 530 x 700 x 229 mm. Weight: 7.0 kg.

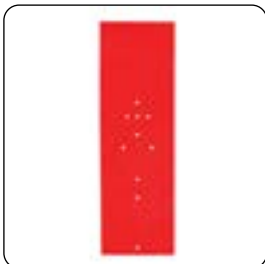

FIRE PLAN CONTAINER

Part Number: 332613 (ALUMINIUM), 3326131 (PVC)

Durable, watertight Fire Plan Storage Container designed to securely hold fire and escape route plans. Measuring 1000mm in length, it features a gasket-sealed, chained lid to protect documents from moisture.

SUPPORT MAGNETIC BASE FOR PORTABLE FIRE EXTINGUISHERS

Part Number: 17-0114116

Support Magnetic Base for Portable Fire Extinguishers 6Kg/9Kg/12Kg & 6Lt/9Lt &, 2Kg/5Kg Co2, Avoid drilling use the Magnetic Support Base Suitable for various types of brackets/ fire, extinguishers., Fire extinguisher bracket is not included.

SECURITY ALARM - BRACKET

Part Number: 17-0133001

Security Alarm - Bracket for Dry Powder, Foam and CO2 F/E (requires a 9V battery)., Activated when the F/E is removed from the Bracket by an Unauthorized Person., Deactivated when Authorized Personnel Inserts Pin into the Bracket.

LITHIUM BATTERY FIRE

HEAVY DUTY BRACKET FOR F/E
KG / 6LT / 5KG CO2

Part Number: 17-0114002

Galvanized Bracket with Internal Protective Pads. Adjustable Width fitting to Various, Capacities. Electrostatic Coat. A good choice for Dry Powder – Foam permanent System F/E.

HEAVY DUTY BRACKET FOR F/E
12KG / 9LT

Part Number: 17-0114001

Galvanized Bracket with Internal Protective Pads. Adjustable Width fitting to Various, Capacities. Electrostatic Coat. A good choice for Dry Powder – Foam permanent System F/E.

RUBBER STRAP T-LADDER 360 MM

Part Number: 3331-017

T-ladder rubber strap with 4 holes. Black. EPDM rubber, which is highly resistant, to heat, UV, water, wind and weather, oil, petrol and much more. Length: 360 mm,, Thickness: ø 12/8 mm

SUPPORT BELT

Part Number: 17-0117003

Support belt for 6 – 12 Kg / 6 – 9 Lt Fire Extinguishers. To be adjusted to the Metal, Support Bracket.

FLOOR TYPE STAND FOR F/E

Part Number: 17-0114037

For 2pcs of Fire Extinguishers,
6-12 Kg / 6-12
Lt / 2-5 Kg CO2

DOUBLE FLOOR TYPE STAND FOR F/E

Part Number: 17-0114070

For Fire extinguisher
6-12 Kg / 6-9 Lt / 2-5
Kg CO2

FLOOR TYPE STAND FOR F/E

Part Number: 17-0114069

For Fire Extinguisher
6-12 Kg / 6-12 Lt / 2-5
Kg CO2 with indicative
Fire, Extinguisher Sign

LITHIUM BATTERY FIRE

AEROSOL TYPE 0,5LT EXTINGUISHER
FOR LITHIUM BATTERIES FIRE

Part Number: 17-0135616

Extinguishing Agent AVD-Li, Operating Temperature 5°C~+50°C, Max Allowable Pressure 10,8 bar, Approx. Dimensions 314 x 65 mm

AEROSOL TYPE 0,7LT EXTINGUISHER
FOR LITHIUM BATTERIES FIRE S

Part Number: 17-0501127

for Small Lithium-Ion Battery Fires Life in Service: 3 Years.

FIRE EXTINGUISHER 6LT
FOR LITHIUM BATTERIES

Part Number: 17-0501128

One-seam vessel with internal plastic layer and external thread. Includes pressure gauge, safety release valve, non-return valve, and metallic bracket. Suitable for lithium battery fires. Fire rating: 13A, mineral-based agent.

FIRE EXTINGUISHER 6LT HYDROGEL
FOR LITHIUM BATTERIES

Part Number: 17-0501149

One-seam vessel, internal plastic layer, and external thread. Equipped with a pressure gauge, safety release valve, and non-return valve. Suitable for lithium-ion battery fires. Includes a metallic bracket for secure mounting.

FIRE EXTINGUISHER 9LT
FOR LITHIUM BATTERIES

Part Number: 17-0501129

one-seam vessel with internal plastic layer and external thread. Equipped with pressure gauge, safety release valve, and non-return valve. Suitable for lithium battery fires.

FIRE EXTINGUISHER 9LT HYDROGEL
FOR LITHIUM BATTERIES

Part Number: 17-0501150

One-seam vessel, internal plastic layer, and external thread. Equipped with a pressure gauge, safety release valve, and non-return valve. Suitable for lithium-ion battery fires. Includes a metallic bracket for secure mounting.

TROLLEY
FIRE EXTINGUISHER
25L HYDROGEL
FOR LITHIUM FIRES

Part Number:
17-0501163

TROLLEY
FIRE EXTINGUISHER
50L HYDROGEL
FOR LITHIUM FIRES

Part Number:
17-0501164

FIRE SAFETY

Fire safety is crucial in any setting, be it on land or at sea. Regularly checking and training with fire extinguishers and equipment is essential to ensure preparedness, functionality, and compliance with SOLAS requirements.

Ensuring Preparedness:

Regular training equips individuals with the knowledge and confidence to respond swiftly and effectively in case of a fire emergency. Participants learn to identify fire types, select the appropriate extinguisher, and apply the correct techniques, minimizing risks and injuries. Maintaining Functionality: Routine checks and maintenance of fire

extinguishers and equipment identify defects, damage, or expired materials that may hinder their effectiveness. Timely repairs and replacements guarantee reliable operation during emergencies.

Compliance with SOLAS:

Adhering to SOLAS requirements is crucial for ships' fire safety. It mandates regular inspection and maintenance of fire extinguishers and equipment, demonstrating a commitment to safety and reducing fire-related risks on board.

FIRE HOSE WP 15/16 BAR TP 48 BAR, BP ≥50 BAR

New Optimized Internal Lining with Advanced Specifications
e.g. High Strength in Tensile Stress. Tested One by One!
Certified according to EN 14540 / MED / SOLAS.

Navigating through the myriad of standards in Fire Couplings and Adaptors can be time-consuming and challenging. That's why MariTeam is here to streamline the process for you! With our extensive experience in international standards, we are experts at finding the perfect sizes to match what is already on board your vessel. But our expertise doesn't stop there! Even if your requirements go beyond the standard options, we are well-equipped to assist you with custom-built fittings tailored to your unique needs.

At MariTeam, we take pride in being your go-to supplier for all your international fire couplings and adaptors. Our comprehensive range of high-quality products ensures that your vessels are equipped with the finest couplings and adaptors available.

Don't waste precious time searching for the right sizes and specifications. Trust MariTeam to deliver the perfect fire couplings and adaptors, meeting both international standards and your specific requirements.

OSW SMARTFIT

Efficiency and speed are of enormous importance for the deployment of rescue workers. Often it's about minutes or even seconds. This makes it all the more important that equipment is quickly at hand and ready for use. This also includes the integration of a hose coupling to the required hose on site. We have accepted this challenge and created an efficient and economical integration system with our innovation OSW smartFIT. In just three steps, couplings can be integrated into the hose using the OSW smartFit clamping shells. Apart from an Allen key, no other tools or equipment are required. Our OSW smartFIT integration system is available in sizes C/42, C/52 and B/75.

The "smart" integration system scores with many advantages:

- Perfect sliding function due to conical shape
- Binding and unbinding also possible at the point of use
- Significant time savings when laying the hose in use
- made of high-strength, glass fibre reinforced plastic
- High material strength
- Much higher strength of the cover than required by DIN14811

SMARTFIT CLAMP SLIDE RING (WITHOUT RFID), C/52MM

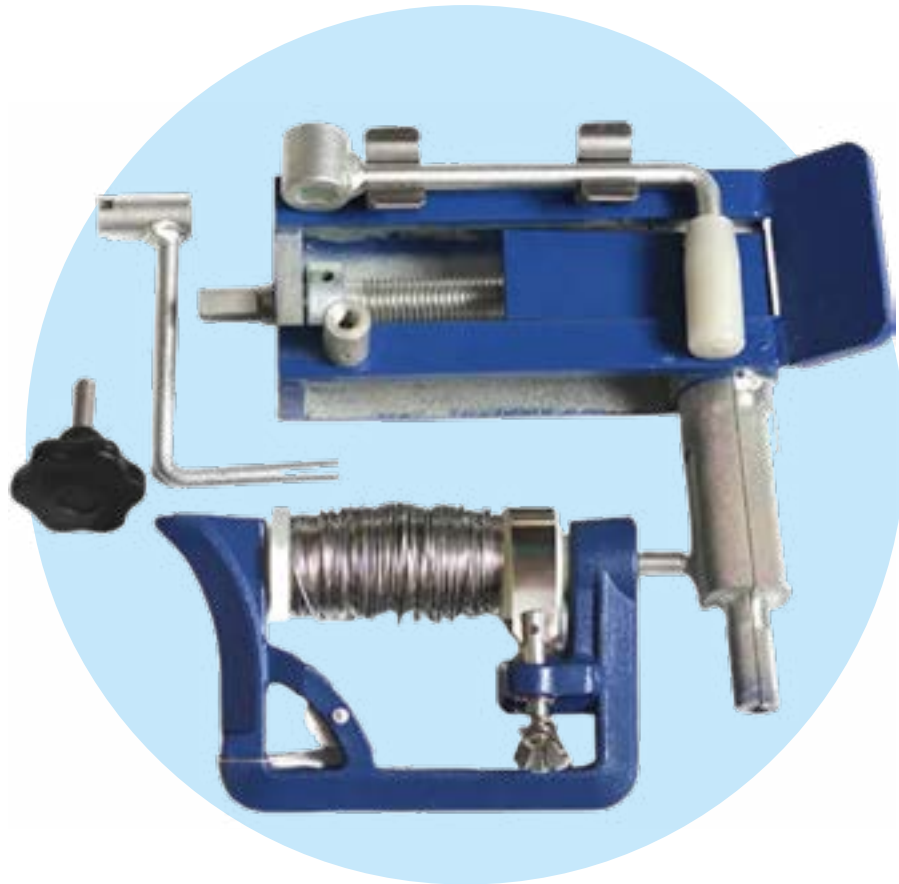

1 set = 2 half shells, 2 screws, 2 nuts Clamp sliding ring made of impact and temperature resistant glass fiber reinforced plastic effectively snagging the clutches and enables the fastest integration even on location.

2 set per hose necessary, Suitable for all Storz couplings according to DIN
PART NUMBER: 3333-005 SMARTFIT CLAMP SLIDE RING (WITH RFID), C/52MM

1 set = 2 half shells, 2 screws, 2 nuts Clamp sliding ring made of impact and temperature resistant glass fiber reinforced plastic effectively snagging the clutches and enables the fastest integration even on location.

2 set per hose necessary, Suitable for all Storz couplings according to DIN
PART NUMBER: 3333-006

HOSE COUPLINGS

PORTABLE HOSE BINDING DEVICE

With Coupling Using Galvanized Wire. Suitable for 1" to 4" Hose. Consists of Two Parts; the Hose Vice and the Wire Binding Component. Also Suitable for Marine Use On Board

Part Number:
3331-002

SPARE WIRE FOR PORTABLE HOSE BINDING DEVICE

1kg of 1 mm wire
for binding machine

Part Number: 2346-139

INTERNATIONAL SHORE CONNECTION WITH BOX

Inlet connection thread 2" male Inside dia. d (mm) 45 Face-to-face length, L (mm) 90 Flange-dia., D (mm) 178 LK/z 132/4, Hole dia. (mm) 19

Part Number: 332610

INTERNATIONAL SHORE CONNECTION WITHOUT BOX

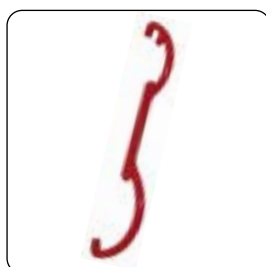

Part Number: 332612

HOOK WRENCH FOR STORZ COUPLINGS 1" - 3"

Part Number: 17-0134020

HOOK WRENCH FOR STORZ COUPLINGS 1" - 4"

Part Number: 17-0134021

HOOK WRENCH FOR NAKAJIMA COUPLINGS 2 1/2"

Part Number: 17-0134032

FOR NAKAJIMA COUPLINGS 1 1/2"

Part Number: 17-0134030

FOR NAKAJIMA COUPLINGS 2"

Part Number: 17-0134031

FOG & JET NOZZLES

CERTIFIED ALUMINUM BRANCHPIPE 2"

Jet - Spray- Stop Switch and Water Curtain For additional protection from Heat and, Smoke, Ranging from 0° – 160° (with Female Storz Coupling). Certified according to, EN 15182-3

Part Number: 17-0101037

CERTIFIED ALUMINUM BRANCHPIPE 2 1/2"

Jet - Spray- Stop Switch and Water Curtain For additional protection from Heat and, Smoke, Ranging from 0° – 160° (with Female Storz Coupling). Certified according to, EN 15182-3

Part Number: 17-0101038

JET/SPRAY NOZZLE - V12

Durable jet/spray nozzle with interchangeable V12, V16, and V19mm tips. Made from hardened orange plastic and available with Storz, John Morris, or Nakajima coupling options. Certified to EN15182-1:2007, EN15182-3:2007, MED, and DNV standards.

Part Number: 333501 (Storz or Nakajima coupling available)

JET/SPRAY NOZZLE - V16

Part Number: 333502 (Storz or Nakajima coupling available)

JET/SPRAY NOZZLE - V19

Part Number: 333503 (Storz or Nakajima coupling available)

Water Fog & Jet Nozzle V12, Brass

Durable brass water branch pipe with dual-purpose nozzle for spray and jet functions.

Part Number: 33360122 (Storz-C), 33360121 (Nakajima)

Water Fog & Jet Nozzle V16, Brass

Part Number: 33360220 (Storz-C), 33360223 (Nakajima)

Water Fog & Jet Nozzle V19, Brass

Part Number: 33360320 (Storz-C), 33360323 (Nakajima)

TURBOJET NOZZLES 2 1/2" JOHN MORRIS

High-performance 2 1/2" John Morris turbojet nozzle with a 4-position adjustable water beam and lever-controlled flow rate. Delivers 463 L/min at 7 bar for efficient firefighting and water distribution.

Part Number: 17-0101030

TURBOJET NOZZLES 2" STORZ C

High-performance 2" Storz C turbojet nozzle with a 4-position adjustable water beam and lever-controlled flow rate. Delivers 463 L/min at 7 bar for efficient firefighting and water distribution.

Part Number: 17-0101042

ESCAPE BREATHING APPARATUS 15 MIN

Part Number: 17-0104001

Complies with the requirements in the following Regulations/Standards; Regulation (EU) 2018/773, item No. MED/3.41. SOLAS 74 as amended, Regulation II/2/13, FSS Code 3 and IMO MSC/Circ. 849, for marine use, Tested according to ISO 23269-1:2008 and EN 1146:2005.

SPARE PART FOR 3LT EEBD – BAG

Part Number: 17-0104025

SPARE PART FOR 3LT EEBD – MASK

Part Number: 17-0104023

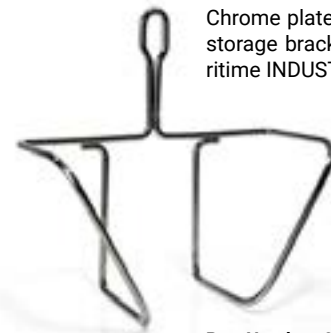

OCENCO M-20.2 EEBD

The OCENCO M-20.2 is a self-contained, closed-circuit breathing apparatus. Complies, with the requirements in the following Standards; Oxygen Delivery Automatic on, demand regulated, Performance Duration 10 minutes – NIOSH Approved, 15 minutes – CE Marked, Donning Time Less than 10 seconds, Service Life 15 years, Inspection Visual, Inspection Frequency Annually for stored units; daily for deployed units, Approvals MED Wheelmark, CE/EN13794, NIOSH, Storage Case Dimensions 21cm x 23cm x 10cm

Part Number: 348005

M-20.2 & M-20.3 WIRE STORAGE BRACKET FOR OCENCO EEBD

Chrome plated steel wire storage brackets for maritime INDUSTRIES

Part Number: 348007

OCENCO M-20.2 REPLACEMENT LABEL

Part Number: 348006

OCENCO M-20.2 M-20.2T TRAINER

The M-20.2T TRAINER comes with two extra mouthpieces, stored in a light-blue, secondary container for easy identification as a non-active unit. A pack of ten M-20.2T Trainer mouthpiece is available.

Part Number: 348008

SCBA

3M/SCOTT BREATHING APPARATUS
COMPLETE WITH CYLINDER 300BAR

Part Number: 4045-002

Sigma 2 Type 2 offers proven durability, reliability, and ease of use. Featuring an ergonomic, lightweight backplate, Type 2 harness, and Kevlar flame-retardant webbing, it supports 200/300 bar cylinders. All components are user-serviceable, low-cost, and MED Type 2 approved.

3M/SCOTT BREATHING APPARATUS
WITHOUT CYLINDER

Part Number: 4045-025

Sigma 2 Type 2 ensures proven durability, reliability, and ease of use. It features a compact first-breath activated demand valve with bypass, an ergonomic lightweight backplate, a Type 2 harness, and Kevlar flame-retardant webbing. User-serviceable, low-cost, and MED Type 2 approved, it supports 200/300 bar cylinders.

3M/SCOTT MASK FOR SIGMA II
- PROMASK PP

Part Number: 4045-004

Positive-pressure face masks feature a liquid silicone rubber outer mask with a reflex seal and a TPE ori-nasal inner mask. Designed for compatibility with all 3Mô Scottô breathing apparatus, they offer a panoramic polycarbonate visor and allow the use of integrated spectacle frames without compromising the seal.

3M/SCOTT STEEL
CYLINDERS

Part Number: 4045-003

Designed for infrequent use, 3M Scott steel cylinders feature cost-effective steel construction with 200 or 300 bar charging pressure. Manufactured to CE/ISO standards and MED approved, they provide reliable performance for breathing apparatus.

3Mô SCOTTô TEST
MANOMETER 200/300 BAR

Part Number: 4045-046

Testmanometer for testing breathing air cylinders. The cylinder pressure test gauge is, specifically designed for checking the contents of a cylinder whilst it is not connected, to a BA set., Manufactured to Applicable CE/ISO standards

3M/SCOTT CARRYING
CASE FOR CABA

Part Number: 4045-045

Heavy-duty carrying case designed for self-contained air breathing apparatus, ensuring secure storage and easy transport.

SEA DROPS ANTI-FOG
AND MASK CLEANER

Part Number: 330422

Anti-fog and lens cleaner for glass and plastic dive masks, effective in all temperatures. Concentrated: A 1.25 fl oz bottle provides 530 drops for multiple treatments, safe for silicone and rubber. Long-Lasting: Ensures fog-free vision for hours with just one drop.

BAUER
JUNIOR II

Part Number: 3331-043

BAUER's most compact mobile compressor, featuring advanced technology in a space-saving design. The JUNIOR II high-pressure compressor (90-330 bar, 100 l/min) is ideal for air and breathing air compression. Available with a three-phase motor, single-phase motor, or petrol engine. Additional Features: Extra filling device for 225/330 bar and a switchover device for easy pressure adjustment.

SCBA

BREATHING APPARATUS COMPLETE WITH CYLINDER

Part Number: 17-20000

FANGZHAN RHZK6 is a certified 300bar 6L SCBA air breathing apparatus with over 30 minutes service time. Approved to SOLAS, CE, MED, EN136/137, it includes mask, cylinder, regulator, and carry case. Ideal for firefighting and confined space rescue.

FANGZHAN MASK

Part Number: 17-20563

FZM-1 full face mask is designed for use with the RHZK6 SCBA set. It provides a secure, airtight seal and clear visibility for firefighting and rescue operations. Built for safety, comfort, and reliable performance in demanding environments.

FANGZHAN STEEL CYLINDER

Part Number: 17-20171

Spare steel air cylinder for RHZK6/30 SCBA. 6L capacity, 300 bar working pressure, with G5/8 thread. Durable steel construction ensures reliable performance for firefighting and rescue operations.

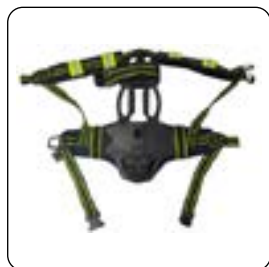

CARRYING CASE FOR SCBA

Part Number: 17-20001

Heavy-duty carrying case designed for self-contained FANGZHAN air breathing apparatus, ensuring secure storage and easy transport.

BACK FRAME AND HARNESS

Part Number: 17-20558

FZB-1 back frame and harness is designed for the RHZK6 SCBA set, offering strong support and ergonomic comfort. Built for durability and ease of use in firefighting and rescue operations. Adjustable straps ensure a secure fit.

TEST MANOMETER 200/300 BAR

Part Number: 330428

Testmanometer for testing breathing air cylinders. The cylinder pressure test gauge is, specifically designed for checking the contents of a cylinder whilst it is not connected, to a BA set., Manufactured to Applicable CE/ISO standards

FIRE EXTINGUISHER

FIRE FOAM

FOMTEC ENVIRO 3X3 ULTRA

Fomtec Enviro USP is a fluorine-free firefighting foam, free from PFAS. Designed as an effective alternative for sprinkler systems and Type II & III discharge devices. Used at 2% with fresh water for various expansion levels, 3% for sprinklers, 0.5-1% for Class A fires, and 6-9% for polar solvents. Compatible with seawater at 6%.

Part Number: 12-3355-01 (25L)

TRAINER E-LITE

Part Number: 11-1149-01 (25L)

Fomtec Trainer E-Lite is a fluorine-free training foam designed for realistic firefighting training. It offers excellent expansion and drainage, works with most standard foam equipment, and is suitable for use with fresh or seawater. Safe and environmentally friendly.

HIGH-PERFORMANCE PFAS-FREE FOAM SOLUTIONS WITH FOMTEC

At MariTeam, we are dedicated to providing our clients with state-of-the-art, environmentally responsible firefighting solutions. Through our partnership with Fomtec, we offer an extensive range of PFAS-Free Foam Concentrates developed to meet and exceed the highest international safety standards.

The need for PFAS-free foam products has never been more critical. With increasing global restrictions and supporting legislation aimed at eliminating harmful chemicals associated with traditional fluorinated foams, the transition to safer, more sustainable alternatives is essential. Unlike older formulations, Fomtec's Enviro range is completely fluorine-free, ensuring that when firefighting foams are deployed, the environmental impact is minimized without compromising performance.

Through years of intensive research and development, including over 1,500 fire performance tests, Fomtec has created a comprehensive portfolio of Fluorine-Free Foam Concentrates. These solutions are designed to address a wide range of applications, including Marine, Offshore, Aviation, Industrial, Municipal Fire & Rescue Services (FRS), and Military operations. The Enviro range offers outstanding fire suppression capabilities even under the most challenging conditions, including salt-water environments, multi-purpose applications, and polar solvent resistance.

Fomtec's commitment to sustainability and performance is backed by rigorous certification standards such as MED, IMO, FM 5130, UL 162, EN 1568-3 & -4, ICAO and US Forestry Service QPL. As global regulations continue to phase out fluorinated foams, adopting PFAS-free alternatives is not only a responsible choice but a necessity for long-term environmental protection.

Together with Fomtec, MariTeam is here to support your transition to a cleaner, safer, and more effective firefighting solution. Our commitment goes beyond providing high-performance foam products; we offer comprehensive technical support and guidance to ensure optimal safety and efficiency in your firefighting systems.

PACKAGING

We supply these products in 25 litre, 200 litre drums, 1000 litre IBC containers. Larger bulk.

STORAGE/SHELF LIFE

Stored in original unbroken packaging the product will have a long shelf life. Shelf life. Shelf life in excess of 10 years will be found in temperate climates. As with all foams, shelf life will be dependent on storage temperatures and conditions.

FIRE FOAM

FOMTEC
ENVIRO USP

Part Number: 11-6000-01 (25L)

Fomtec Enviro USP is a fluorine-free firefighting foam, free from PFAS. Designed as an effective alternative for sprinkler systems and Type II & III discharge devices. Used at 2% with fresh water for various expansion levels, 3% for sprinklers, 0.5-1% for Class A fires, and 6-9% for polar solvents. Compatible with seawater at 6%.

FOMTEC
LS EXP

Part Number: 11-3112-01 (25L)

Fomtec LS EXP is a high-performance, fluorine-free high expansion foam concentrate for use in any high expansion system. Made from hydrocarbon surfactants, solvents, and stabilizers, it is 100% biodegradable and PFAS-free. Used at 2-3% in fresh or seawater. Approved to EN 1568, ISO 7203, and IMO 670. Tested with inside air, with a documented filling height of up to 35m.

FOMTEC
P 3%

Part Number: 13-3004-01 (25L)

Fomtec P 3% is a fluorine-free protein foam made from hydrolyzed protein, foam boosters, stabilizers, and preservatives. It forms a tough, heat-resistant foam blanket on hydrocarbon fuels with excellent burnback resistance. Used at a 3% proportioned solution in fresh or seawater. Freeze-protected to -16°C. Multi-approved and PFAS-free.

FOMTEC P
3% AR

Part Number: 13-3310-01 (25L)

Fomtec P3% AR is a fluorine-free alcohol-resistant protein foam (P-ARC) made from hydrolyzed protein, hydrocarbon surfactants, polymers, solvents, and stabilizers. It rapidly covers burning surfaces, effectively extinguishing hydrocarbon and polar solvent fires. Approved to IMO 1312 and MED. Freeze-protected, suitable for Class A & B fires, and supports low and medium expansion.

FOMTEC
ENVIRO SEA 1%

Part Number: 11-6301-01 (25L)

Fomtec Enviro Sea 1% is a PFAS-free firefighting foam concentrate made with surfactants, stabilizers, and boosters. It targets hydrocarbon fuel fires like oil, diesel, and other water-immiscible fuels. Specially designed for marine use, it works effectively with seawater.

FOMTEC
ENVIRO SEA 3%

Part Number: 11-6303-01 (25L)

Fomtec Enviro Sea 3% is a PFAS-free firefighting foam concentrate made with surfactants, stabilizers, and boosters. It is designed for hydrocarbon fuel fires like oil, diesel, and other water-immiscible fuels. Ideal for marine use, it works effectively with seawater.

FOMTEC
ENVIRO SEA 6%

Part Number: 11-6306-01 (25L)

Fomtec Enviro Sea 6% is a PFAS-free firefighting foam concentrate made with surfactants, stabilizers, and boosters. Designed for hydrocarbon fuel fires like oil, diesel, and other water-immiscible fuels, it is ideal for marine use and works effectively with seawater.

FIRE TESTER

**SOLO 461 HEAT DETECTOR
Test Kit****Part Number:** SOLO461-001

Solo 461 cordless heat detector test kit suits fixed temperature, rate-of-rise, and combination detectors up to 194°F/90°C. Battery-powered with no cables, it allows testing at height, angles, or low levels. Compatible with Solo access poles for testing up to 9m, using patented focused heat technology.

**SOLO 330 AEROSOL
Smoke/CO Dispenser****Part Number:** SOLO330-001

Solo 330 works with Solo A5 and A10 aerosols for compliant smoke detector testing. The dispenser conserves smoke, ensuring fast and reliable results with minimal waste. It is also compatible with Solo C3 aerosol for testing CO fire detectors.

**SOLO100 TELESCOPIC
Access Pole****Part Number:** 100-001

Solo100 is a lightweight, durable telescopic pole for safe access to high-level detectors. Extends from 1.26m to 4.50m with four adjustable sections. Compatible with fire detector testers, it reduces ladder use, enhancing workplace safety. Ideal for fire safety and facility management professionals.

**TEST GAS
Solo A10****Part Number:** 330967

Solo smoke test aerosols are approved worldwide and deliver smoke particles to detectors, replicating fire conditions, designed for Solo 330/332 dispensers, compliant with aerosol regulations, and non-flammable.

**TEST GAS
Solo A5****Part Number:** A5-001

Solo smoke test aerosols 250ml (flammable) for use with Solo 330/332. Delivers smoke particles to detectors, replicating fire conditions. Approved worldwide, manufacturer-approved, and UL certified. Compliant with the latest aerosol regulations, ensuring reliable detector testing.

**FLAME DETECTOR
Test Lamp****Part Number:**

Flame Detector Test Lamp activates UV, IR and UV/IR Flame Detectors which detect in the 185-235 nm UV and 4.4μ IR frequency ranges.

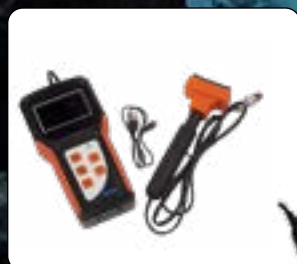

FIRE EQUIPMENT

CO2 BOTTLES

LEVEL MEASURING

PART NUMBERS:

HS-MLI-2:
EXTENSION PROBE ROD
(600mm)

HS-MLI-3:
900 PROBE ROD
(320mm+580~980mm)

HS-MLI-4:
STANDARD PROBE ROD and
one EXTENSION PROBE ROD

HS-MLI-5:
STANDARD PROBE ROD
and one 900 PROBE ROD

HS-MLI-6:
EXTENSION PROBE ROD
and one 900 PROBE ROD

The Portable Ultrasonic Liquid Level Indicator is designed to measure the presence or absence of the liquid at a certain height position in a container or in pipelines. Due to the technique of non-contact detection this liquid level indicator is an ideal choice for the detection of dangerous toxic or corrosive liquids. One Probe with two sensors, suitable for various types of tanks; No need of ultrasonic couplant, cost saving, convenient and no pollution; Three kinds of probe rod optional for different requirement. CO2 Bottle Level Measuring HS-MLI-1 is most common with one indicator with one standard probe rod (190mm).

Part Number: HS-MLI-1: STANDARD PROBE RODE(190mm)

PROTECTIVE SUITS

TESIMAX GS 3/GS 3M POLYRAN-L

Part Number: 0222-151 XL

Complete gas and chemical protection suit (gas-tight), designed for firefighters. One-piece with a molded rubber seal in the hood for a secure fit under full-face masks. Features gastight zip, integrated gloves, boots, and pressure relief valves. Lightweight, flexible, reusable, and highly chemical-resistant. Available in yellow, red, or white.

TESIMAX GS 3/GS 3M SYKAN 2

Part Number: 0222-212XL

Complete gas and chemical protection suit (gas-tight), ideal for firefighters. One-piece design with a molded rubber seal in the hood for a secure fit under full-face masks. Features a 130 cm gastight zip, integrated gloves, boots, and pressure relief valves. Lightweight, flexible, reusable, and highly chemical-resistant. Silent, ultra-comfortable. Color: Signal orange.

TESIMAX GS 3/GS 3M SYKAN 4

Part Number: 0222-214XL

Complete gas and chemical protection suit (gas-tight), ideal for firefighters. One-piece design with a molded rubber seal in the hood for a secure fit under full-face masks. Features a 130 cm gastight zip, integrated gloves, boots, and pressure relief valves. Made from para-aramid fabric with HPF elastomers and a PTFE barrier for top-tier NBC/CBRN protection.

RESPIREX GTR REGULAR ROBUSTNESS GAS-TIGHT SUIT

Part Number: GTR

This fully encapsulating Type 1A-ET gas-tight suit protects emergency responders from toxic gases, liquids, and chemicals. Made from lightweight DuPont® Tychem® TKA barrier fabric. Certified to EN 943-2:2019 (ET) and SOLAS standards. Five-year maintenance-free shelf life, with annual tests from year 5 up to 10 years.

RESPIREX GTL ESD GAS-TIGHT SUIT

Part Number: GTL ESD

The GTL ESD is a Type 1A-ET single-use gas-tight suit designed for emergency responders, providing protection against toxic gases, liquids, and chemicals. Its electrostatic dissipative construction allows use in ATEX environments. Certified to EN 943-2:2019 (ET) and SOLAS standards. Seven-year maintenance-free shelf life, maximum of 10 years.

RESPIREX GTL GAS-TIGHT SUIT

Part Number: GTL

The GTL is a Type 1A-ET single-use gas-tight suit designed for emergency responders, offering protection against toxic gases, liquids, and chemicals. Made from lightweight Chemprotex® 400 multi-layer barrier fabric for superior comfort. Certified to EN 943-2:2019 (ET) and SOLAS standards. Seven-year maintenance-free shelf life, maximum of 10 years.

RESPIREX GAS-TIGHT TRAINING SUIT

Part Number: TRAINING SUIT

A training version of the Respirex fully encapsulating Type 1A-ET gas-tight suit. Made from green PVC and clearly marked as a training suit to prevent confusion in emergencies. Replicates the features of the operational suit and is designed for multiple reuses without testing. Material: PVC C2.

RESPIREX SC1 SPLASH SUIT

Part Number: SC1

The SC1 is a single-use, liquid-tight (Type 3) chemical protective suit made from high-performance Chemprotex® 300 fabric. It protects against liquid chemical splashes and can be used with external breathing apparatus or a full facemask and filter. Designed for non-immediately hazardous areas. Certified to SOLAS standards. Ten-year shelf life.

RESPIREX SPLASHMASTER COVERALL

Part Number: SPLASHMASTER

A lightweight, Type 3 liquid-tight hooded coverall for limited reuse. Designed for use with a full-face mask and filter or other respiratory protection. Made from Chemprotex® 300 for high chemical resistance, with a comfortable spun-bonded lining. Ten-year shelf life.

RESPIREX ISOTEC BOOTS

Part Number: ISOTEC BOOTS

A heat and flame-resistant safety boot meeting EN 15090 HI3 F3A standards for flame resistance, radiant heat (20kW/m²), and sole insulation (2500°C for 40 min). Ideal for welding, grinding, or firefighting. CE marked, REACH compliant, machine washable (40°C), and chemically resistant (EN 13832-3:2018). Shelf life over 10 years. EU sizes 35-50.

SEA HORSE SAR

A gas-tight containment bag designed for 200L (600mm x 880mm) chemical storage drums. Safely contains and transports leaking drums or hazardous vapors. Made from durable Chemprotex® X multi-layer barrier fabric. Includes bag, neoprene gloves, hood, and beanie. Tested to ISO 17491-1:2012. Seven-year maintenance-free shelf life, max 10 years.

Part Number: CONTAINER

FIRE EXTINGUISHER

CUSTOM CATALOGS

CUSTOM CATALOGS

*Your Ship,
Your Catalog*

- Choose products from our comprehensive range
- Add specific equipment outside our standard catalog
- Ensure your crew always has what they need
- Let MariTeam manage everything for you

FIRE EXTINGUISHER

CUSTOM CATALOGS

WE CREATE A DEDICATED CATALOG

For your fleet making ordering
simple and efficient.
One supplier, one solution.

TAILORED TO YOUR FLEET'S NEEDS

- At MariTeam, we understand that every company has unique requirements. That's why we offer fully customized catalogs tailored to your ship's specific needs. Select products from our extensive range or add additional items, and we'll handle everything —ensuring a seamless supply chain and inventory management.

SAFETY, REDUCING COSTS, & PREVENTING ERRORS

- A customized catalog is more than just a convenience —it's a strategic advantage. By standardizing the equipment onboard your fleet, you minimize the risk of ordering errors, compatibility issues, and supply delays. This not only enhances safety and compliance but also helps to reduce operational costs by optimizing procurement and avoiding unnecessary stockpiling.

By working closely with you, MariTeam facilitates ongoing collaboration between shipowners, operators, and suppliers. This ensures that your catalog remains up-to-date, efficient, and tailored to your evolving needs. Together, we create a smarter, safer, and more cost-effective supply solution for your fleet.
