

Kibo. Lightweight ladder for professional use.

The Kibo is the professional lightweight ladder. Its light weight makes it very handy and easy to set up. The bended beams ensure that you can safely carry out your job anywhere. This ladder is equipped with a square rung tube profile, which makes it extra strong and durable in use.

The single ladder is extremely easy to use and can easily be set up against any wall. The combination ladder is multifunctional. Put the ladder in the A position or use it as a push-up ladder along the facade. Made for every job, so you can always work safely.
