

Altrex RolGuard

A height-adjustable platform ladder for professional maintenance requiring a comfortable standing area and an enclosing safety frame. Its large platform and wheeled design make repeated tasks at different locations easier to organise.

Features

- 60 × 40 cm platform with surrounding guardrails
- Telescopic height adjustment
- Standard and Compact versions available

Selected configurations

Number of Treads	Article number	Minimum standing height	Maximum standing height	Max Working Height	Weight
3 / 4	502193	0.72 m	0.95 m	2.95 m	26.4 kg
5 / 7	502195	1.14 m	1.61 m	3.6 m	31.6 kg
8 / 11	502199	1.84 m	2.5 m	4.5 m	39.4 kg
Compact 5 / 7	502187	1.14 m	1.61 m	3.6 m	32.6 kg

Profiled 175 mm wheels support movement between tasks. Removable tool trays and a bucket hook keep equipment accessible. The Compact 5/7 version has a folding guardrail and a 2.18 m storage height. Select the version for its standing height and available floor space.

Safety and quality

Altrex designs professional access equipment with a focus on safety, durable materials and working comfort.

Follow the supplied instructions and assess the working location. Working height is approximate reach height, not platform height. Tower assembly, stabilisers and permitted indoor/outdoor heights depend on the complete configuration.
